TO BE BUSY TIME FOR THE SCHOOLS

First Eight Days of October Will
Bring Three Celebrations, All to
be Observed Here.

ON DISEASE PREVENTION

Health Topics Will be Discussed at
Public Meeting—Riley Day Cel-
ebration Planned.

The first eight days of October are usually busy ones for Hoosier school children and this year will be no exception. In the first octette of days in October, there are no less than three special days which are observed throughout Indiana and which will be fittingly remembered in the Rushville schools.

Superintendent J. H. Scholl said today that recognition will be taken by the schools of Disease Prevention Day on the first day of October, James Whitecomb Riley's birthday on the seventh day and Fire Prevention day in the eighth.

Disease Prevention Day will not be confined to the school alone, but will take on the aspects of a city-wide celebration. The children will be taught the lessons of the day and shown the value of good health. About time for the close of school in the afternoon, there will be a parade of school children bearing placards with appropriate inscriptions.

In the evening a public meeting will be held in the Graham Annex auditorium at which health topics will be discussed. Although the speaker's name is not yet known, it is assured that a physician of wide reputation will be brought here to address the meeting.

The celebration of Riley's birthday will be under the auspices of the Parent-Teachers association of the high school. It will consist of a program given on the night of his birthday anniversary. Those who want to make the celebration a notable one are arranging a program of Riley numbers by Rushville artists and it is certain that a very enjoyable evening's entertainment will be arranged, it is stated by officials of the association.

Fire Prevention Day will be the day following Riley's birthday. The observance will be in accordance with a proclamation of Governor Ralston. On that day the local teachers will discuss with the pupils the necessity for guarding against fires which originate from carelessness and the great loss that results each year from this source. Fire drills will also be held in the schools.

On that day the people of Indiana are asked to remove all trash and other debris in which fires might start and to see that the proper safeguards are placed around stoves and furnaces before they are put into winter use.

W. E. Longley, state fire marshal, has been sending literature throughout the state to teachers and others and has personally written to them to ask them to co-operate in the statewide movement to prevent fire losses next year. Special attention has been called to carelessness which results in the majority of the fires in this state. It is said that practically all fire losses could be avoided if proper precautions were used to prevent stoves from overheating and if trash and rubbish was removed from likely places of origin.

The fire marshal said he would be glad to send programs and materials to any of the teachers in the state, who desired to celebrate the day, or to any organization which intends to

VIOLATES AGREEMENT

Elwood, Ind., Attorney Sentenced to
Prison For Forgery.

(By United Press.)
Indianapolis, Ind., Sept. 25.—Carmen N. Sells, age 28, former Elwood, Ind., attorney, was taken before Judge Collins in criminal court today and sentenced to serve from 2 to 14 years in the Jeffersonville penitentiary.

Sells, who was charged with forging the name of his father-in-law to a check recently, signed an agreement with Judge Collins to live a different life. Judge Collins said Sells had violated the terms of the agreement and found him guilty on the forgery charge.

HOMER BUILDING DESTROYED BY FIRE

Clyde Wilder's Pool Room and
Barber Shop Catches Fire and
Other Structures are Endangered.

LOSS \$1,500; INSURANCE \$800

But for the timely assistance of the bucket brigade in Homer late Friday afternoon, several buildings might have burnt down when the pool room and barber shop of Clyde Wilder caught fire and was destroyed. Several nearby buildings caught fire, but the blaze was extinguished and no damage was done except to Wilder's building.

The building was owned by Wilder and he operated a pool room and barber shop in it. The loss is estimated at fifteen hundred dollars, with eight hundred dollars insurance.

The fire was first discovered in the roof and had gained such headway that it could not be put out. The cause for the fire cannot be fixed unless it started from a spark from a Pennsylvania engine. The railroad track is not far from the Wilder building. The Manilla fire brigade was called, but arrived too late to be of any assistance in saving the Wilder building. The Manilla fire fighters, however, did valiant service in keeping nearby buildings from being damaged.

WILL REPRODUCE 1816 CONVENTION

National Patriotic League Will Show
Scenes at Corydon 100 Years
Ago in Motion Pictures.

MALE DESCENDANTS WANTED

The National Patriotic League of Washington, D. C., will reproduce in motion pictures the Indiana Constitutional Convention of 1816 at Corydon, Ind., between Oct. 1 and Oct. 15. The idea has been suggested that the lineal male descendants of the signers of the 1816 constitution pose for the reproduction of the convention picture as it would give the reproduction greater historical value.

The league favors the suggestion and would like to have all lineal male descendants of the signers of the constitution of 1816, who are desirous of posing in the reproduction and care to volunteer their services, write to the Indianapolis office of the league. In as much as the time is short and the league desires to get the cast together, it is necessary that this be done at once.

LAST INNING FOR "TREE DOCTORS"

Motion For New Trial of Case in
Which They Sought to Collect
\$493.55 From City Overruled.

DEMURRER IN CONTEST CASE

Defendants Argue Race For Prizes
in Newspaper Subscription
Contest Was Game of Chance

A demurrer to the complaint in the case of Miss Louise Kemmer against James E. Naden, publisher of the American, and others, in which \$500 damages are demanded, was argued before Judge Sparks this morning, but no ruling was made. A number of other actions were acted upon today.

The suit against the American is the outgrowth of a subscription contest conducted, by the American, in which the plaintiff was a contestant. The demurrer says that the complaint does not assert "facts sufficient to constitute a cause of action."

It is also stated that "said complaint on its face shows that it (the contest for prizes offered in the subscription contest) was a game of chance and therefore a gaming contract, which is prohibited by law, and that all such contracts are against public policy and void."

Judgment for the plaintiff in the sum of \$1,263.98 was entered by agreement in the suit on notes of Reeves & company, a corporation, against William E. Roth and Clifford Benning, in which \$1,600 was demanded.

The "tree doctors" case against the city had its last inning in the circuit court this morning when a motion of the plaintiff's for a new trial was overruled. The suit was brought by the State Forestry Company of Indianapolis against the city of Rushville to collect a bill of \$493.55 for work done on trees in the city park. On June 18 of this year the court found for the city for costs. The motion was overruled with exceptions to the plaintiff.

The court ordered judgment on the verdict of \$62.25 for the plaintiff in the case of William P. Lucas against A. P. Walker.

A petition filed by Blanch Wolverton against Clayton Wolverton to modify a divorce decree was dismissed this morning.

In the two cases brought by the city of Rushville against the state public service commission for an injunction and a review of the order, which involves the orders of the commission raising the price of the gas for the Central Fuel and People Natural Gas companies, the demurrer filed by the defendant was withdrawn. The defendant defaulted in the divorce case of Violet Hendricks against Elmer Hendricks and the prosecutor was ordered to appear. The same record was made in the divorce suits of George Wolf against Sarah Wolfe and Alonzo W. Sleeth against Belva N. Sleeth.

The suit on notes of Harry McDaniel against A. P. Walker and Alberta M. Walker, in which \$1,100 was demanded, was dismissed by the plaintiff at the plaintiff's costs.

The suit of John Power and W. P. Jay against James F. Weidner and Clarence Weidner for an accounting, dissolution of partnership and a receiver was dismissed.

The suit on notes of the Franklin county national bank against Robert Jinks in which \$312.20 was demanded, was dismissed and the costs paid.

Miss Beatrice Mack left this morning for a visit with friends in Marion and Hartford City.

MANY CHANGES IN SCHOOL LAW

Agriculture And Domestic Science
Will be Taught in District And
Township Schools

HELPFUL TO TEACHERS

Many Disappointed Today When
They Found There Was No Ex-
amination as Usual.

Certain important changes in the matter of qualifications for teachers in the public schools of Indiana and in the manner of taking examinations and signing of contracts go into effect this year as a result of a new law passed by the last legislature. County superintendents will call attention to these changes as vitally affecting the teachers. Many of these changes, at least, are of such a character as will raise the standard of teaching and hold the teachers more strictly to account.

Several teachers were disappointed today because they had not taken account of the changes in the school law. Several came here with the expectations of taking a teachers' examination. But on arriving here, they learned from County Superintendent C. M. George that the amended school law which took effect the first day of this month provided there shall be no examination in September, but that one shall be held the last Saturday in October. Then there will be none until the last Saturday in January, 1916.

The first joint township institute was held today in the teachers' examination room. Teachers of Union, Jackson and Ripley townships attended. The institute was called to order by the county superintendent and John Geraghty was elected chairman and Clara Herbst secretary.

Some of these changes are outlined as follows:

Agriculture and domestic science must be taught in all district and township schools.

Industrial arts and domestic science must be taught in all grades in the city schools.

Every commissioned and certified high school must offer one full year's work in domestic science to girls and of either agriculture or industrial arts to boys.

Every teacher, city or county, required to teach one of these special subjects must hold a license in the special subject or subjects he or she is required to teach. These licenses must be attached to regular certificates at the time of signing contract.

By provision of the state board of education every teacher in a township commissioned high school must have the O. K. of the county superintendent. The intention of this ruling is to prevent teachers being given positions to pay political debts or for similar reasons.

There will be no September examinations under the examination law, but there will be one in October. If any emergency vacancies occur during the school year they may be filled on permit issued by the county superintendent which permit must expire at the date of the next general examination.

No such permit is issuable to a teacher who has failed in the examinations of the current year.

All state licenses must be countersigned by the county superintendent in the county in which they are to be used before the teacher can sign a contract.

The 1915 law making the above important changes becomes effective for the coming school term.

City institutes will now be com-

VILLA OFFICERS ARE HELD

Nine Are Detained by United
States For Crossing Border.

Washington, Sept. 25.—Confirmation of the arrest of General Madero and eight other Villa officers, who crossed over into the United States last Friday, was received from Gen. Funston at the war department today. They will be turned over to the immigration official for detention on the charge of forcibly entering the United States.

CARRANZA ENEMIES ORGANIZED ATTACK

Claim of His Agent in Answering
Charge His Soldiers Fired on
American Troopers.

BUT OFFICIALS ARE DUBIOUS

(By United Press.)
Brownsville, Texas, Sept. 25.—Enemies of Carranza who fear his recognition by the United States, organized the attack on American soldiers at Progreso yesterday, according to the official explanation made to American military officials today by J. L. Darza, Carranzista counsel here.

Darza explained further that Mexican soldiers did not drive bands of marauders from the banks of the Rio Grande through fear of being fired upon by American soldiers if they began firing.

Despite this explanation officials here are positive the attack was made by Carranzista regulars, the situation is growing tense. Everything was quiet along the river today but 300 soldiers and armed citizens are constantly on guard.

Mercedes reported today that 28 Mexicans were killed and wounded in the Progreso fighting.

DEMONSTRATIONS MADE IN ATHENS

Crowds Parade Streets Friday Night
and Today Carrying Flags of
the Allied Nations.

NEWSPAPERS ARE CAUTIOUS

(By United Press.)
Athens, Sept. 25.—Great crowds paraded the streets last night and today in war demonstrations while automobiles dashed about the capital carrying officers responding to the call for mobilization of the Greek land forces.

Demonstrations occurred before the French, Italian and English legations. The crowds carried Greek flags and those of the allied nations. The war offices were not closed during the night.

Newspapers are commenting cautiously upon Bulgaria's move and expressing the hope that the Bulgarian mobilization order does not mean that Czar Ferdinand intends to start a third Balkan war.

A RETALIATORY MOVE

(By United Press.)
Berlin, (By wireless,) Sept. 25.—German industrial associations today served warning that participation in the Anglo-French loan by American firms doing business in Germany will be considered justification for the breaking off of all commercial connections.

INDICTS FARBER FOR PERJURY

Marion County Grand Jury Returns
True Bill Against State Wit-
ness in Bell Trial.

BACKED DOWN ON TESTIMONY

Night Sessions Loom Large When
Jury Makes Another Request
to Hasten the Case.

(By United Press.)
Indianapolis, Ind., Sept. 25.—Harry Farber, saloon keeper, who testified yesterday as a state witness in the election corruption conspiracy trial of Mayor Joseph E. Bell, was indicted today by the Marion county grand jury, charged with perjury.

Farber's testimony yesterday did not agree in important details with his evidence given before the grand jury that indicted Bell, Thomas Taggart and a hundred others. The grand jury that acted today is not the same that returned the conspiracy indictments.

Several other state witnesses have failed to live up to the expectations of the state and Deputy Prosecutor Roach yesterday declared that prosecutions might follow.

Farber yesterday testified that he gave William Kissel, who has the Indianapolis city mule contract, \$25 for the campaign. He denied, however, that Kissel had threatened to have the police "lay on him" if he didn't pay. Prosecutor Rucker read what he said was Farber's grand jury evidence to the effect that Kissel had made such a threat.

At that time Roach intimated an example might be made of witnesses who wer "backed down."

Farber was arrested and held on \$2,500 bond. He has arranged to give bond.

Prospects of night sessions in the election conspiracy trial of Mayor Joseph E. Bell loomed up again today when the jury repeated its request. The jury wishes to hasten the trial for its members apparently are weakening under the strain.

Stanley M. Timberlake, tel juror who recently suffered from nervous breakdown, called a doctor again today. Another juror is ill but his name is withheld. Many wore dark glasses and eye lashes for they are forced to face a bright light.

Thirty saloon keepers were examined by the state today. They testified to contributing from \$5 to \$25 to the Democratic campaign fund, but none testified that he was threatened.

MUST GET THEIR ASSENT

Loan Commissioners Present Ameri-
cans' Offers to Governments.

(By United Press.)
New York, Sept. 25.—The Anglo-French financial commissioners were reported today to have placed before their respective governments the terms upon which the American bankers will make the huge war loan. These terms are different from those asked by the commissioners and the assent of the home government is necessary to their acceptance.

Rev. G. R. Powell, the new minister for the Morristown United Brethren Circuit, comprising the churches at Morristown, Gwynneville and Blue River Chapel, has arrived to assume his pastoral duties, removing his family from Cowan, Ind., to Morristown for residence during the term of his ministry there.

EVERYBODY DANCES AT THE EXPOSITION

Modern Steps Are no Longer Fad at Exposition; They Are an Institution

DANCE HALLS ARE POPULAR

(By United Press.) San Francisco, Sept. 25.—Literally, everybody's doing it. San Francisco, where the "modern dance" fad originated, has gone stiff, stark staring mad over it. It is no longer a fad; it is an institution.

From the cradle to the grave—at least as far as victims' ages are concerned—the modern dance has seized the exposition city. In every place, where old and young congregate to while away pleasant hours, the one step, tango, fox trot, and so on ad infinitum are in full wide-open swing.

The Exposition nightly has its dance-mad throngs. Your native son—or daughter—heads at once for the dance hall; the wonders of the Exposition are an old story to the native naught interests or amuses him but the tango parlors.

Down town, in the lobster palaces it is the same.

One night on the same dance floor a little miss—not a minute older than 4 years—tripped the one gleefully with her mother, while close at hand a white-haired man, perhaps 65 or 70, with his spouse, seemed to be having the time of his gray second youth doing the same thing.

The baby couldn't make her feet behave. When the strains of the orchestra died away, she insisted on continuing, and when her mother made her back way to her dinner, the tot paraded to the center of the floor and staged a solo dance that made some of the older folks envious. She was not on exhibition; the dance was in her blood tingling for expression, like the sparkle of wine. To her the modern dance was the expression of sheer living.

Mr. Consul Charles Brissel brags from Bagdad that the folks at Hilah on the Euphrates are building houses with bricks from the "hanging gardens" of Nebuchadnezzar. We know of some men who have just built a Temple of Shame in the "hanging gardens" of Georgia.

Another Turkish tribe Consul Brissel got acquainted with weaves houses out of hair. Can't you almost hear Mrs. Tenny Begun telling

hubby that she's just made his pet camel over into "the cutest bungalow?"

And just think! In summer they can climb into their cottage, ride him to the seashore, kill him and weave him up into six rooms and a bath.

The children can pick up a couple of stray dogs along the way for a new playhouse.

The barber of Bagdad doubtless has made a vast fortune by this time out of hair-lumber.

And by way of friendly suggestions, if Consul Brissel has any little Brussels about, he had better look to their safety.

Mr. Consul Marsh at Ottawa remarks that Ottawa street cars are equipped with clocks. Thank fortune no self-respecting American street car company would so sinfully waste space on a clock when it might just as well have the room to ram in another passenger.

Mr. Consul Bob Honey writes that Madrid merchants measure Spanish wine by "Heetoliters." We think he must mean "Hic-toliters."

IS WAGING FIGHT ON HOG CHOLERA

Dr. L. C. Kigin, Formerly of This City is Co-Operating With De-catur County Agent.

VACCINATION DEMONSTRATED

Dr. C. L. Kigin, of Purdue University, has been in this county for several days in the interest of combating hog cholera and in company with County Agent Walter McCoy, has been making trips to various localities, says the Greensburg Review. The hog cholera situation here is very acute and there are probably two hundred cases at the present time. This means that every precaution must be taken to prevent the spread of the disease or there will be much loss.

Friday afternoon Dr. Kigin, assisted by the County Agent, held a vaccination demonstration on the William Gentry farm, and there were many farmers present to witness the work. Tonight in the building at Clarksburg a meeting will be held at which time useful information for the prevention of the spread of cholera will be given out. A large attendance is expected.

HOW INVADERS WOULD APPEAR

New Yorkers Get Glimpse of How it Would Seem to be Invaded When Guardsmen Parade

10,000 MEN PARTICIPATE

Their Maneuvers Are on Largest Scale Ever Attempted in The United States

(By United Press.) New York, Sept. 25.—Those New Yorkers who were interested in seeing what a hostile army marching into New York would look like, gathered at Van Cortland Park today and saw. The army composed of about 10,000 National Guardsmen from the New York city boroughs and their maneuvers were said to be on the largest scale ever attempted in the United States.

Having earlier in the day marched off into the woods to the north of the park, in the afternoon the army marched back, while Gov. Whitman, 2,000 other special guests and many thousands of the public looked on and cheered. First came the screen of cavalry and the advance guard, with their flanking parties and after them the regular infantry guard, followed by the main body of troops, the rear guard trailing all.

The men, horses, artillery, ambulances and other equipment occupied two hours in their advance upon the park.

Van Cortland looked like an armed camp as early as 10 o'clock. Some of the cavalry and field artillery started operations the night before, the latter giving a demonstration of the noise that probably would be heard the night before in case a hostile army actually did invade the city. During the morning there were shows going on in a dozen ridges. The engineer corps built pontoon bridges and laid mines, the artillery drilled and fired blank cartridges from behind neighboring hills, one squadron of cavalry gave rough riding exhibitions, twelve ambulances dashed about picking up imaginary dead and a whole battalion attacked mess in furious fashion.

It was a very warlike day and very successful for purposes of demonstration.

FARM CONGRESS TO BEGIN SUNDAY

Key of Pure Gold Taken From Colorado Mountains Will Open Gates to The Exposition

MANY EXHIBITS FOR DENVER

(By United Press.) Denver, Colo., Sept. 25.—A key of pure gold taken from the mountains of Colorado will open the gates of the International Soil-Products Exposition and Farm Congress here tomorrow. Dr. W. H. Sharpley, mayor of the city will turn Denver over to the managers of the great exposition and Gov. George Carlson will extend the hospitality of the whole state to the farmers of the world. Others who will make speeches of welcome are John Vallery, chairman of the local board of managers, Thomas B. Stearns, president of the Denver Chamber of Commerce, W. I. Drummond, chairman of the Board of Governors of the Exposition and Congress, and B. F. Hanaford, director general of the exposition. The exhibits are all ready for the inspection of the 200,000 visitors who are expected by the managers of the exposition.

These exhibits will include a \$20,000 government display, the largest ever made in this country, exhibits from 20 states west of the Mississippi and many foreign countries, and will include all soil products raised with or without irrigation.

SPENT LARGE SUM TO FIX UP TOWN

Harrisburg Invested More Than \$5,000,000 And Now it is Celebrating The Events

SOME EYESORES REMOVED

(By United Press.)

Harrisburg, Pa., Sept. 25.—Harrisburg has been celebrating for three days.

Back in 1910 Harrisburg discovered that as a city it hadn't much to brag of except being the State Capital and that it scarcely deserved that honor. Only a mile or two of paved streets; no parks worthy the name; no playgrounds, drinking water heavy with coal dust and disease germs—everything, in fact, just about what it ought not to be.

So Harrisburg borrowed \$1,090,000 and proceeded to dress up. Later it made other loans, until the aggregate was \$2,431,000, while that much more was spent by individual property-owners paying for improvements in front of their real estate.

The city has more than seventy miles of paved streets, mostly sheet asphalt; far more than 1,000 acres of public parks, most of which it owns outright; a plant which filters all water used in the city; summer playgrounds and swimming pools for children; a summer camp for children; tennis courts and golf links for the adolescent and adults, and a river front and river basin which has been improved in a manner unique in the entire world.

The plans originally made in 1901 have been completed, which is the wherefore of three-day celebration ending today. Other plans have been made for the future and probably will be executed, for a remarkable thing about the expenditure of the millions of dollars has been that no one ever has yelled "graft."

The three-day celebration includes unveiling of markers, parades, addresses, etc. concluding with a street car-baret in Market Square tonight.

Notice to Non-Residents.

The State of Indiana, Rush County, In the Rush Circuit Court, September Term, 1915. Complaint No. 616.

WILL CALL ON JAPAN TO HELP OUT IN WAR

Allies Will Ask Eastern Power to Aid in Checking Threatened Drive on Turk Capital

OR SEND TROOPS TO RUSSIA

(By United Press.)

Tokio, Sept. 25.—The allies are reported to be preparing to call upon Japan to send troops to help block the threatened Austro-German drive on Constantinople. No official confirmation is obtainable here but the report attracted considerable comment today. If the allied diplomats make such representation, there efforts most certainly will result in failure.

It was suggested that Japan send troops to the Dardanelles to aid in a quick dash on Constantinople or send enough divisions to the Russian front to keep the German armies there.

EXPLAINS IDIOTIC YANKEE PHRASE

German Military Attache Says he Did Not Refer to Ali Americans in Letter to His Wife.

GOING BACK TO WASHINGTON

(By United Press.)

San Francisco, Sept. 25.—Declaring that his phrase, "Idiotic Yankee" did not refer to the American people as a whole but only to a "few individuals" and was intentionally distorted by the British. Captain Fritz Von Papen, German military attache at Washington, said today he intended to return to his post when his "vacation" is over.

"To think that a man in my position should make such a general statement is the limit of absurdity," he said. "The much discussed letter was addressed to my wife. In passing it may be remarked that the publishing of a man's letters to his wife is the very poorest form."

Administrator's Sale of Personal Property

CARRANZA CHANCES LOOK TO BE DIM NOW

New Turn of Affairs Since Attack Near Progreso Friday Make His Recognition Doubtful.

FUNSTON REPORT AWAITED

(By United Press.)

Washington, Sept. 25.—The likelihood of United States recognition of General Carranza was lessened today. A sharp turn of the tide of official sentiment against Carranza was evident.

Alleged attacks on United States soldiers yesterday at Progreso by Carranza troops was a factor in the change. The war department was awaiting a report from General Funston.

Walter Conway narrowly avoided an accident by presence of mind this morning when the pan under his automobile caught fire while he was driving Fifth street between Main and Morgan. He snatched the pan from the machine and prevented the gasoline from igniting.

Amusements

The Gem offers for Saturday night patrons the two-act drama, "The Opening Night," with Adele Lane in the stellar role. It is a story of the stage which shows life behind the scenes when the mask is off. It is classed a dram of passions. Adding diversity to the program, the Gem tonight will have a comedy, "His New Automobile," in which Jane Gail and King Baggott have the leading parts. Monday evening Marie Walcamp will be seen in "The Toll of the Sea," the most stupendous sea picture ever made by the Bison company.

The Princess will show a comedy and a drama tonight. In the former Mr. and Mrs. Sidney Drew, who are favorites with local movie patrons, will have the first parts. The picture, "The Honeymoon Baby" deals with the funny situations which develop when newlyweds borrow a baby. Richard Travers and Lillian Drew will be seen in the two-part drama, "Jane of the Soil," a story of mountain folk, in which the scene shifts to a college town when Jane, the heroine, gets opportunity for a college education. It is a story full of thrilling action and emotion. Monday evening the spectacular five-act drama, "Women and Wine," will be the bill.

pulsory and will be conducted along the same general lines as the county institutes. The textbooks that are to be made the basis of the work in both city and township insitutes are the following: "The Rise of the American People," by R. G. Usher and "The Teacher and the School," by C. P. Colgrove. These city institutes will constitute a new feature, or amount to that, as teachers must attend them monthly or forfeit a day's pay. In addition to not forfeiting pay, if they attend, teachers will receive additional pay for attendance.

There is another new ruling that will interest teachers. Under this ruling they will not fail wholly at an examination if they do not fail in more than two subjects at the next examination and will not have to take the entire examination over as heretofore. Under the old law a failure in one subject meant a failure in all. Also, if the state board of education so rules, the grade examinations may be taken in two sections, in one month and the other the next month.

The Chinese government is con- sidering the purchase of 100 sub- marines at a cost of about \$75,000,- 000. Secretary Daniels thinks the expenditure of \$20,000,000 for "subs" will be sufficient for both coasts of this country. That will build about 15 of the type of the one now being constructed by this Government. Even China plans to out-distance us.

What Our Neighbors Are Talking About

Knightstown is preparing for an evangelistic campaign. A boosters meeting will be held next Tuesday night at which time reports of special committees will be heard as to the probable site of a tabernacle and other details.

Connersville thinks it is a big enough city to have an automobile headlight dimmer ordinance. The News says the council will likely pass such an ordinance, but it is un- settled whether the ordinance shall apply only to cars owned in Con- nersville or to those owned in Fay- ette county.

The Postmaster at Seymour has received notice that bids for the construction of the new post office building in that city will be opened October 30. The contract will be awarded soon after and work on the structure will begin later, probably not until next spring. The approp- riation for the building and site is \$75,000. To show how slow the government is in this line of work it is sufficient to say that the approp- riation for the Seymour building was made in June, 1910. A year later, in June, 1911, a site was pur- chased for \$12,000. Now over four years have passed before bids are received for the building.

Morristown will hold their horse show the 14th of October. Business men of Morristown met recently and selected the date. Frank Walker is president, Wade Thayer vice-presi- dent, Ed Zike sec'y-treasurer, and Frank Thayer manager.

The First National Bank at Montpelier is transacting business under difficulties. For two weeks all efforts to open the bank vault have failed, though several experts have worked on the combination without success. All of the bank's books, records and \$200,000 in cur- rency is locked up.

Perry T. Bennett, who lives in Hancock county, threshed his wheat on September 1st. On Tuesday he said the company to which he be- longed had about 50 acres yet to thresh. Mr. Bennett says he had good wheat, but the day before it was threshed he went over the field and cut the green growing wheat out of the bundles. He reported that a man who threshed wheat Monday

sold it at Shirley for ninety cents per bushel. One threshing ma- chine man southeast of Shirley has nine jobs yet to thresh.

Secret of Strength.

(Cuba (N. Y.) Patriot.)
Germany alone of the great pow- ers now at war, is sufficient within herself. No other nation of those engaged could so well have with- stood the commercial isolation en- forced upon that empire. She alone has been able to supply all her own needs. Naturally, she has desired opportunity to buy food and ammu- nition from the outside world, but since it is denied her she is getting along without them. Similarly situ- ated in a measure, but not cut off to such a degree, Russia is crum- bling before her advance, largely, it is admitted, for lack of military supplies.

Why is it that Germany is so much better able to withstand this isolation, to depend upon herself? The answer is found in a few words; Her Protective Tariff. For near two generations Germany has had a policy of Protection, sufficient and continuous. Under that Protec- tion she has fostered and developed to a high degree the manufacture of everything she needs, either in peace or war. Meanwhile, under the same policy, she forged ahead industrially and commercially as no other European nation has. In many respects she surpassed the United States.

If there had been yet needed any argument to prove the wisdom of the Protective policy, it is found in the wonderful ability shown by Ger- many in the present war to supply her own needs, and supply them with an abundance far beyond the reach of her enemies, who have had the markets of all the world open to them.

AN APPEAL TO HATE.

(Liberty Herald.)
The Richmond Palladium is out in a scare head article about "How Watson Boses the Indiana Politics," intimating that the Rushville states- man, ex-Vice President Fairbanks, James P. Goodrich and Joe Kealing are in great conspiracy to control and boss State Politics and do a lot of terrible things too numerous to mention. The article is an appeal to hate, prejudice and senseless malice, founded on a baseless chim- era at assumed villainy. It is the old game of the "Pal" to create strife among the Republicans and to please the Tom Taggart and Don Roberts Democracy in Indiana. That gag has had its day in the sixth dis- trict!

NOTES OF THE BELL TRIAL

Indianapolis, Ind., Sept. 25.— There are indications that one of the biggest surprises of the many sprung by the defense lawyers in Mayor Bell's trial was a bluff, pure and simple put over with consummate skill.

"How did the defense get the transcripts given before the Federal grand jury?" was the startled whisper about the Criminal court room after Attorney Ryan had read to Bud Gilson, a confessed conspir- ator and state witness, what pur- ported to be extracts from his evi- dence before the federal jury. The defense repeated this procedure when Ernest Roeder, Gilson's former partner in the saloon business, whose relationship to this trial is identical with Gilson's took the stand.

Since evidence given the federal grand jury is most carefully guard- ed in District Attorney Dailey's of- fice and furthermore is under lock and key of the federal government, the supposition is that the defense made a good guess as to Gilson's and Roeder's testimony there, or, which is more probable obtained from both these state witnesses im- mediately after they appeared be- fore the federal jury, a detailed ac-

count of their evidence. The attor- neys defending Bell are closely as- sociated with the case that doubt- less they had the case in hand even before it was taken before the fed- eral grand jury.

At the beginning of third week of the trial (last Tuesday) it appeared that the state had in reality just started its case. The trial then looked good for four weeks more, if not longer.

The following interesting bit of dialogue conducted by Attorney Spaan with Arthur Robinson, an- nounced candidate for U. S. Senator drew a laugh.

"You are interested in politics, are you not?" asked Spaan.

"Yes," answered Robinson in loud tones.

"You have announced yourself as candidate for nomination for United States Senator?"

"Yes" beamed Robinson to the jury.

Spaan crossed his legs.

"Do you think you can beat Jim Watson for the job?" he asked.

"I object," shouted prosecutor Rucker.

"Yes," yelled Robinson.

"I withdraw the question," said Spaan, uncrossing his legs.

"We withdraw our objection," said deputy prosecutor Roach with a bow.

Newspaper Comment on Watson Candidacy

Entitled to Support.
(Liberty Herald.)

Certainly we repeat, if James E. Watson is nominated for U. S. Senator by the re-united Republican party he will be entitled to the loyal support of every member of the party. If he is nominated The Herald will advocate his election, and we say the same for his competitors for this nomination. In other words this paper will fearlessly support the principles and policies of the Republican party and nominees of the party, county, State and National.

PURDUE STUDENTS HIT BY NEW RULING

Prohibits Them From Engaging in Certain Major Activities Claiming 15 Hours Time

MUST KEEP CLASS STANDING

(By United Press.)
Lafayette, Ind., Sept. 23.—The seeker after college honors at Pur- due university has met strong op- position in a faculty ruling just put in to force which prohibits any student from engaging in certain major activities claiming fifteen or more hours time a week and provid- ing that any student having defi- ciencies in his class standing shall be barred from these major college activities.

President W. E. Stone in a state- ment issued today said that the new ruling was passed to counteract the tendency of student activities and organizations to absorb too much of the student's time.

there will be special military and naval demonstrations for the instruction and interest of the old soldiers. Submarines, torpedo boats, gunboats and other small craft which can come up the Potomac will be anchored off the harbor front for their inspection and review. Hydroplane and aeroplane flights and various other features which illustrate the progress made in warfare and its implements since the great Civil strife will be shown. Troops from Fort Myer and other posts will go through a series of maneuvers either on the monument grounds or the polo grounds along the river front.

An elaborate system of registration has been arranged in such a way that the old soldiers will be able to meet comrades of their war time companions and regiments, no matter how widely they have been separated during the last half century. Moreover, there will be "get-together camp fires," in the evening which will be addressed by various old commanders and high government officials. The veteran sailors will also have their "dog watch" during which Secretary of the Navy Daniels will address them.

Many Confederate leaders have been invited to attend the encampment, and it is probable several of them will be on hand. As this is the last encampment, that will be held in Washington, the old Union soldiers are straining every effort to be present. Incidentally this is the 49th annual meeting of the Army and the ranks are thinning so fast that there probably will be very few more encampments.

In all there are forty-six different departments of the army. David J. Palmer of Des Moines Iowa is the commander-in-chief. Among the great Union war leaders present will be the only two living corps commanders, General Ames, of Mississippi and Gregg, of Pennsylvania, and John T. Wilder of Knoxville will be present.

London—One result of the submarine war is that Grimsby, a British East Coast fishing city has been obliged to import fish, the Grimsby trawlers feeling safer in port.

London—Because of the necessity for Sunday harvest work, due to scarcity of labor on account of war, the rector of Thornham Magna, Suffolk, first conducts brief Sunday services in the fields and then leads a hand to the work.

London—A mother at Sudbury, Norfolk, learned of the death of her two soldier sons in Northern France killed by the same shell.

Assist Your Stomach

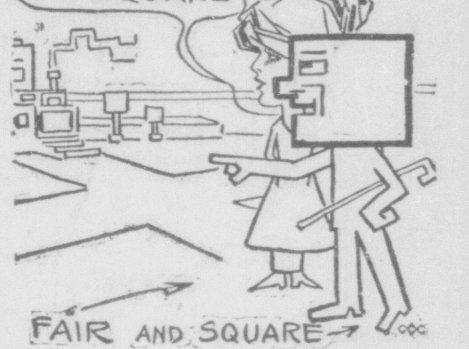

To Get Rid of the Poisonous Gases and Fermenting Food.

A good long fast will do this sometimes. A trip to the mountains. Tramping. Roughing it. Yes, very good remedies.

But are you going to avail yourself of either one of these remedies. No? Then the next best thing is to try a bottle of Peruna. Take it according to directions. You will have a natural appetite. All gas and fermentation in the stomach will disappear.

Read what Mrs. Emma Bell, Box 204, Fort Pierce, Florida, says: "I was taken suddenly with swelling of the stomach and bowels, and great distress. Very painful. Three doctors gave me no relief. Could not eat anything. Everything soured. I was starving to death. I began taking Peruna and was soon strong enough to do work. After taking five bottles I can truthfully say I am well. I gained twenty pounds."

SIX-RUN LEAD BIG HANDICAP

But Knights of Columbus Threatened Elks Near End of Fraternal League Game Friday.

ELKS WON IT IN THE FIRST

John Geraghty Gets Credit For Only Home Run in League Games, Ball Being Lost in Grass.

A six-run lead in the first inning was too much for the Knights of Columbus in the Fraternal League game at Edgewater park with the Elks Friday afternoon. The final score was seven to three, but the game was well played and was far more interesting than the score would indicate.

Perry O'neal opened the game for the Elks with a line single to left. Orme was safe on Ed O'Neil's fumble. Hawk struck out and Woods doubled to center, scoring O'neal and Orme. Green was hit by a pitched ball, Pearsey singled, scoring Woods and sending Green to third. Innis singled to right and Green scored.

Brann struck out and Osborn doubled to left. Woods and Innis scoring on the hit. Osborn was caught trying to take third, Doll to O'neal.

In the second inning John Geraghty was credited with the first home run of the season when Innis lost the ball out in left field.

The Elks marked up another one in the fifth. Brann started the fireworks with a single to left. Osborn was out, McKee to Doll. O'neal walked and Orme singled to center, scoring Brann. Hawk was out, O'neal to Doll. Orme was caught trying to steal second, Joyce to Mullins.

The Knights of Columbus threatened to start something in the sixth when they bunched three hits and scored twice. Joyce went out, Osborn to Woods. Mullins singled to center and Geraghty followed with a terrific double almost in the same spot. Mullins taking third, Big Ed O'Neil arose to the occasion and smashed out a brrad drive for one base to center and two runs were scored. Fitzgerald went out, Pearsey to Woods and Collier flew out to Brann.

CRACK SHOTS TO MEET

Black Point, Fla., Sept. 25.—Arrangements are being made by the State National Guard to entertain the competing rifle teams from 36 states in the matches to be held on the State Camp Grounds here early next month. Teams are also expected from Canada and Cuba. Several crack shots from the Army and Navy will attend.

LAST TOUCHES FOR VETERANS

Washington is Finishing Arrangements For Reception of G. A.

R. Encampment Crowds

IT WILL BEGIN ON SUNDAY

Chief Feature of Great Spectacular

Interest Will be Grand Review

on Next Wednesday

By F. A. CONNOLLY

(U. P. Staff Correspondent.)

Washington, Sept. 25.—Draped in bunting and with flags flying, Washington is today putting on the last touches for the reception of the Veterans of the Grand Army of the Republic whose annual encampment starts here tomorrow and lasts throughout the week. This probably will be the last encampment held in the Nation's Capital, and nothing is being neglected to make it the most memorable coming together of the old soldiers since the Civil war.

With the cry of "On to Washington" once more ringing throughout the land, but this time from the throats of Union soldiers instead of Confederate, a host of thirty thousand old warriors is expected to storm the city. Alone with these are expected to come nearly fifty thousand relatives and a half dozen auxiliary societies which hold their annual encampment with the G. A. R. There will be a hundred thousand visitors in the Capital tomorrow night.

The chief feature of the forthcoming Encampment and the one which will be of great spectacular interest will be the Grand Review which will take place next Wednesday. This parade of the Veterans will mark the 50th anniversary of the Grand Review of the victorious troops of the Union Army, held in Washington at the close of the Civil War. It is a sad commentary on the grayed ranks to know that the line of march which was practically continuous for two days a half century ago when reviewed by President Johnson and his cabinet, will this year be reviewed by President Wilson and his official family in less than four hours.

Gen. Nelson A. Miles, retired has been selected as the Grand Marshall of the pageant, and escorted by his naval and military aides will head the parade from the Peace Monument, at the foot of the Capitol grounds, up historic Pennsylvania Avenue to the State War and Navy building. The court of honor will be in Executive Square, which is along the last two blocks of the line of march.

Here the President, with the members of his cabinet and the various diplomatic and Army and Navy officers will review the veterans.

HOLDS MOTHER'S RECORD IN WAR

Mrs. Mary Fury of County Galway, Ireland, Gives Ten Sons to The British Army

AND THAT'S NOT ALL EITHER

She Has a Daughter Whose Husband And Family Have Also Joined Fighting Forces

BY WILBUR S. FORREST.
U. P. Staff Correspondent.
London, Sept. 10. (By Mail)—The mother's record in this war is held by Mrs. Mary Fury, of Loughrea, County Galway, Ireland.

She has given ten sons to the British army. Five are dead in France. One lies in a hospital recovering from wounds. One is a prisoner in Germany. One remains fighting and another is nursing a right arm shattered by a bullet.

This is not all of Mrs. Fury's fighting family. She has a daughter, Mrs. Mary Cossey, Romford, England. Mrs. Cossey's husband is one of Romford's 2000 fighting men at the front. Several weeks ago, Mrs. Cossey supported her large family of small children with the aid of two brothers-in-law. Now they have gone to war and she is struggling on alone.

What Mrs. Mary Fury and Mrs. Cossey have suffered in England's greatest crisis is the story of hundreds of homes of the working classes in the British Isles. A similar story can be told in a smaller way from the mansions of British aristocracy and from the "castles" of the middle classes. But it does not leave the sting of poverty that confronts Mrs. Mary Fury, of county Galway and her sisters of the lower classes. She will suffer until her body is planted in Irish soil and with her, thousands of other women whose husbands have left the spade and shovel.

If conscription comes in Great Britain it will not find the husbands, brothers and sons of the Mary Furies and Mary Cosseys among the "slackers."

The laboring element is becoming gradually the scarcest element in Britain. Cities towns and villages alike have emptied their houses and streets. These men are today in the majority in Northern France, The Dardanelles and other theaters of war. The upper and middle classes are in the hopeless numerical minority.

There is one obscure little street in Walworth, a suburb of South London, that tells the tale. This street is in the heart of the "working" locality. It is called "Trafalgar street" and is simply two rows of 150 small brick houses and shops built closely together. The war office has distributed cards of honor for every family that sends a man to the army. There are 195 cards of honor in the windows of these little shops and houses. Wooden guns in the narrow street. About half of them will never see their fathers again. They will go into the factories their fathers left as soon as their arms are strong enough.

The war has brought all British classes together—in the trenches. It has brought all classes at home down to the same place—during the war. But what is to become of the Mrs. Furies and Mrs. Cosseys after the war, is a question that is hard to answer.

CO-OPERATION HELPS PRISON

State and Federal Authorities Study Problems Together and Will Make Experiment

WILL BE TRIED IN GEORGIA

Authorities Will Establish Portable Road-Building Camp and Work Negro Convicts.

(By United Press.)
Washington, Sept. 25.—Two new interesting and important features have been added to the history of the convict problem in the United States.

Actual co-operation between state and federal authorities in the care and management of state convicts.

The application, on a large scale, of the honor system of government to negro convicts.

This work is about to be taken up by the authorities of Fulton county, Georgia, and the Office of Public Roads of the Department of Agriculture. After a year's study of convict labor conditions throughout the country as applied to road building, J. E. Pennybacker, chief of the above division, and H. S. Fairbanks, highway engineer, who will be in actual charge of the work, have completed plans for the establishment of a portable road-building camp, the buildings are to be constructed on the portable plan and models for use at exhibitions and county fairs have just been completed at the bureau. They are so arranged that the sides can be readily taken out and screens substituted and besides the bunk rooms there will be the kitchen, showers, and a recreation room. The sanitary work has been planned by Passed Assistant W. F. Draper of the Public Health Service and is patterned after the method employed in army camps.

There will be fifty convicts in the camp, who will do all the work of assembling the buildings and striking them whenever it is necessary to move. It is believed that one day will be sufficient to make or break camp, so carefully and ingeniously have the buildings been constructed.

Officials claim a three-fold merit for their program: first, it is beneficial mentally, morally and physically for the convicts; second, it saves the state money by the introduction of more scientific methods of convict labor and of road construction; and third, it helps the state and the country by turning out a greater number of miles of good roads every year than have been built heretofore.

RALLY DAY PROGRAM.

A rally day program will be followed at the United Presbyterian Sabbath school tomorrow morning. After Sabbath school there will be an observance of the Lord's Supper by the congregation. The program follows:

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a leading hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face."

"But to get liver and bowels working as they ought, without producing evil after-effects, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though of course it is not really classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'sentinel tablets'—that's the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Sentinel tablets, which may be procured from any druggist—a dime's worth will do—will prove a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unslightly eruptions, pimples, boils, blotches, sallow or muddy skin, usually are due to a sluggish liver, a constipated bowel—and a polluted blood stream as a consequence. How foolish in such cases to resort to outward applications, which can never have natural, permanent results. If more people only knew it, there is a very simple remedy, to be found in any drug store, which is as effective as it is harmless and quick acting. It is an old formula, long recognized by the medical profession, which has been put in tablet form, and at such small cost that one now is deprived of its wonderful benefits.

"Sentinel tablets"—that's the name—are entirely vegetable and there's no habit-forming ingredient. You need only get about a dime's worth, and swallow one at bedtime to realize that nothing else quite so good for the purpose. Action in the morning is so easy, so soothing, and instead of a weakening after-effect, you feel truly refreshed and invigorated. Sentinel tablets are not only the finest remedy known for constipation and torpid liver, but offer the sanest, most sensible treatment for complexion difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "sentinel tablet" as a vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Sentinel tablets, aside from their efficacy, doubtless owe their large popularity to a tendency to aid in bringing about natural functioning—instead of encouraging the "cathartic habit." Also, instead of injuring the membranes lining the organs involved, they exert a healing influence. Instead of weakening, they add tone to the intestinal wall. And they work so easily and gently, they are of course preferred on this account to the violently acting purgatives. Their inextinguishable popularity is another reason for the popularity of sentinel tablets. One need procure only a dime's worth, and take one tablet upon retiring, to be convinced that the ideal remedy for constipation, torpid liver, and their many evil consequences, has finally been found.—Druggists Review.

During Critical Days President Wilson Sits Tight But Shows no Signs of Trouble

DOES NOT CALL ON ADVISORS

Attends Ball Games, Plays Golf And Has Resumed Theatre Going —Not a High-Brow.

BY GEORGE P. WEST
(U. P. Staff Correspondent.)

Washington, Sept. 25.—Through sweltering days of international crises,—(the word is stale in Washington)—President Wilson again has demonstrated his marvelous ability to sit tight and to think through a decision without seeing advisors and without a flurry in White House routine.

So far as visible signs go, President Wilson in these perilous days might be a quiet scholar leading a singularly uneventful and retired life in the big homey old mansion among the trees.

During the most critical days of the Arabic-Hesperian-Dumba incidents he saw secretary of State Lansing for a brief 40 minutes, ate luncheon at his own table with Son-in-law McAdoo once, and in the course of a week received formal calls lasting fifteen minutes from not a half dozen others,—all persons of no importance to whom international affairs are Greek.

Not once did the President sit across the table from an official or personal advisor and enjoy one of those loose and informal discussions that average citizens crave when confronted by problems infinitely less absorbing and momentous. One afternoon he sat through a ball game with the rotund form of Secretary of the Interior Lane beside him, but the President's shaking shoulders showed that their conversation led far away from submarines and diplomatic conspiracies.

All that policemen on the White House law and White House correspondents saw during these days was the leisurely White House routine of golfing in the morning and motoring in the afternoon. At the executive offices assistant secretaries read newspapers and talked tennis or baseball. The appointment book was nearly blank.

This does not mean President Wilson hasn't his finger on the pulse of the nation. He has imagination, for one thing, and it is declared it is just because he wants to listen to the voice of all the people that he refuses to listen to a handful who may not represent the ninety millions.

The President has resumed theatre going for the first time since the death of Mrs. Wilson. In his first week he saw a stock company in one of the old popular favorites and a vaudeville show.

There is nothing high-brow in his pleasures. No gum-chewing girl with her "steady" beside her could be more appreciative when a sleep-stick "artist" falls into the foot-light trough or reaches over and gives the orchestra leader a resounding smack.

Dr. Gary Grayson, white House physician on special details from the Navy, is the President's constant companion at golf, motoring and the theatre. Dr. Grayson has a reputation as a good story teller, and at the White House he gets lots of practice. The President loves a good story and laughs like a boy.

Washington doesn't like the President's seclusion. It likes the search light on the Washington monument at night and the Marine band. It likes fuss and feathers, and it likes White House occupants who are good subjects for endless anecdotes. But even to Washington the thought occurs that perhaps the President is giving so much to the country partly because he gives so little to Washington. The presidency is such a big job these days that the man who fills

STALLIONS—I will make fall season with my 3 stallions, Raven Cress, Louie Childs and Ingenieur at \$15 to insure a colt to stand up. W. A. Jones. 164t6

it must neglect a few little details like supplying Washington with subjects for social gossip and giving the glad hand to a stream of leading citizens from Spoon River, Silver Springs and way points.

Those who know the President well says he avoids numerous personal interviews not because he does not like companionship, but because he likes it too well. When he opens his mind to a caller he gives and takes too many impressions. It taxes his strength and interferes with the orderly course of his thought. And so, just because he is so very human, he must give to some the impression that he is a cold-blooded thinking machine.

GARY SOON TO HAVE MANY BOULEVARDS

One of Chief Reasons Why "Magic City" Wanted to Get Into Second Class

CITY BEAUTIFUL IS PLANNED

(By United Press.)

Gary, Ind., Sept. 25.—Those who followed through the 1915 legislature the efforts of Gary to become a second class instead of a fourth class city, and who witnesses the final success of the "magic city," will be interested to know that Gary's boulevard system is about to get its start. One of the chief reasons given why Gary should be admitted to the second class was that its park board would be empowered to go ahead with plans for a city beautiful.

Trees are to be planted soon in the streets selected for the boulevard system and gradually these streets will be improved according to the comprehensive plan.

Gary, however, finds that its plan for growth, having been prepared well in advance against the time when Gary will be as big as Indianapolis, is now really a handicap to the plans of the park board rather than a help as it should be. The plan was laid out before the boulevard scheme was conceived and Gary's outlying sections were subdivided into streets and lots long in advance. Now it is found that the streets to be made into boulevards are too narrow, and the plans of the park board are sorely limited.

A man in Brazil has asked the Commerce department where he can buy 85,000 razor blades. We're like to see his whiskers.

A Netherlander has written the Commerce department for the address of whoever make "a handy folding egg boiler." We would like to glimpse the folding egg he's going to boil.

'Same Netherlander wants "a perfect noodle cutter." We fear he is doomed to disappointment in this, as perfect noodle cutters have for the most part given way to the hangman and the electric chair.

Since the Commerce department has solanated the lack of Potash, we are reminded that there hasn't been much Perlmuter noticeable lately, either.

An American motor-boat engine ran 31 hours on a Chinese river, without stopping, reports Mr. Consul Hanson at Swatow. Brilliant thought. Maybe the trouble with out "demon-motorboat" engines all along has been that we didn't run 'em in Chinese. 'Come to think of it, they speak the language perfectly.

LATEST STEP OF POPE DISCUSSED

All Rome is "Worked up" Over His Decision Against Bigotry And Political Ultra Conservatism.

ONE EMINENT CARDINAL HIT

His Policy is to Promote Them in Order to Get Them Out of The Way—Incident Recalled

By ALICE ROHE
(U. P. Staff Correspondent.)

Rome, Aug. 27: (By Mail)—All Rome, not only Vatican circles but various shades of the White and Black party—is discussing Pope Benedict's XV's latest decisive step against bigotry or more politely ultra conservatism.

As a result an eminent Cardinal has been scheduled for promotion to the position of cancelliere, quite in accordance with the Vatican political proverb, "Promoveatur ut amoveatur." Which in plain English means "Let him be promoted so he may be cleared out of our way."

At any rate Cardinal Cagiano de Azevedo credited with being one of the most illiberal members of the Sacred College will be no more head of the Congregation of Clerics and Regulars. For his insistence that the clerics and all connected with the Vatican should not read the newspapers issued by the Roman Publishing Society has brought him in direct opposition to Pope Benedict XV. The order that no clerics should read even the Corriere D'Italia, Rome's semi-official clerical paper, and that other daily newspapers published in various Italian cities, and of such a Black complexion that their clerical sympathies were, above question, caused Pope Benedict XV to take a hand in the matter. Cardinal de Azevedo even though cognizant of the Pope's liberal ideas and his desire that newspapers be permitted the clergy fell back upon the technical authority invested in his office and gave forth the definite order. Thereupon the Pope whose first step upon ascending the Papal throne was to bring into accord the two elements of modernity and illiberalism, graciously slated the Cardinal for promotion to the position of cancelliere. This act followed an open one of the Cardinal Azevedo who several days ago issued a circular in which he prohibited the reading of the Roman morning papers, denouncing especially one morning Catholic paper. He even condemned one which the Pope had approved.

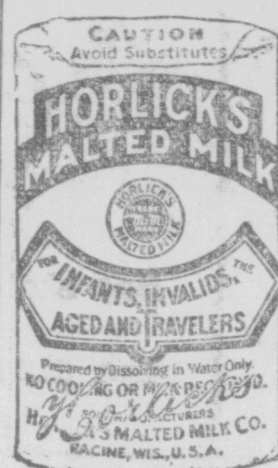

The incident has naturally given rise to much comment among anti-clericals who see in it an outbreak of certain dissensions existing in the Vatican. Pope Benedict XV, however, rather gives forth the impression that such dissension if existent will quickly disappear.

It was Pope Pius X who first permitted the order against newspapers to go forth limiting, as would Cardinal Azevedo, all clerics to the Observatore Romano. Pope Benedict has always manifested an interest in newspapers and their influences. Naturally a law so narrow as to prohibit clerics from reading daily journals was one with which he had little sympathy. His idea is that the Catholic press should become a great instrument for the good of the church and he sees no way of accomplishing this by putting a ban upon it in favor of one official evening organ.

Posters, carrying information "To Prevent Fires," are being sent out with instructions to post them in school houses everywhere in the state. Fire drill rules also are being sent to the schools.

"The fire loss for the last eight months is \$1,000,000 less than for the same period last year," the fire marshal said, "and educational work will help to bring about further reduction in the future." A special bulletin on "lightening losses," containing tables showing such losses in Indiana, and a plea for the lightning rod, is contained in the material being sent out.

A list of questions relating to the individual fire hazards of each home has been printed by the fire marshal and is being distributed. From this list the fire marshal hopes to obtain much information relative to methods to aid in reducing these individual hazards.

The questions include the following:

- Do you use safety matches
- Are floors under stoves protected, and how?
- How are ashes disposed of?
- Of what material is the house?
- Of what material is the basement?
- Are chimneys built on the ground or on rackets?
- Are chimneys in good repair?
- Do stovepipes pass through attics, closets or unused rooms?
- Do stovepipes pass through partitions without metal protectors?
- Do you keep gasoline?
- Do you use stoves or furnaces, and what kind?
- Do you use kerosene?
- Have you any fire extinguishers?
- Do you know how to turn in an alarm?

MEDICINE MEN ARE CAUGHT UP

More Than Half Hundred Companies Are Prosecuted Under Food and Drugs Act Amendment

FOR MAKING FALSE CLAIMS

Traffic in Medicines in Which Fraudulent Assertions Are Made is an Economic Fraud

Washington, Sept. 25.—More than a hundred legal actions have been terminated successfully under the Sherley Amendment to the Food and Drugs Act, which prohibits false and fraudulent claims as to curative or therapeutic effects of drugs or medicines. Criminal prosecutions against the manufacturers were brought in 25 cases, but in 31 instances the falsely and fraudulently labeled medicines were seized while in interstate commerce. Claims made by the manufacturers for the curative powers of these preparations ranged from tuberculosis, smallpox and diphtheria to coughs, colds and scalp diseases. A number of other criminal prosecutions and seizures are pending in various Federal courts throughout the United States because of alleged violations of the Sherley Amendment similar to those which have already been tried. The officials charged the enforcement of the Food and Drugs Act are of the opinion that the evils of the patent medicine business can be stopped only by the most drastic action.

It is pointed out that traffic in medicines for which false and fraudulent claims are made is not only an economic fraud of the worst kind, in that a worthless preparation that costs but a few cents is frequently sold for a dollar or more a bottle, but that health, and even life, is endangered by failure to secure the service of a physician in such serious diseases as tuberculosis, diphtheria, pneumonia and scarlet fever, until too late, because reliance may have been placed in the curative powers of some worthless preparation which is claimed to be a never-failing remedy. The deluded victim may not realize his danger until the disease has reached a

stage too far advanced for even the ablest physicians to cope with it. Effective treatment depends in most cases on applying it during the early stages of the disease.

The following list includes other preparations against which the Government's charge that they were falsely or fraudulently labeled was sustained by the Federal courts. Statements were made on the labels of, or on the circulars accompanying, the preparations intended to make the purchaser believe that the preparations intended to make the purchaser believe that the medicines were effective cures for a great variety of diseases for which they were recommended by the manufacturers or promoters. The main allegations of the Government were upheld by the courts and judgment accordingly entered in connection with each of the following preparations:

Radam's Microbe Killer, Hilton's Specific, Smith's Agricultural Linctament, Dr. Sullivan's Sure Solvent, Russell's White Drops, Stramoline, Wild Cherry Pepsin, Moreau's Wine of Anise, Dr. Herman Koch's Brand Phosphate, Celery and Gin Compound, Swissco Hair and Scalp Remedy, Cod Liver Oil with Syrup of Tar, Dr. Mozley's Lemon Elixir, Sa-Yo Mint Jajubes, Gray's Glycerine Tonic Compound, Dr. Martel's Female Pills, Quickstep, Fry's Remedy, Seawright's Magnesian Lithia Waters, Hill's Aromatic Ext. TO BE BUSY TIME FOR THE SCHOOLS

First Eight Days of October Will
Bring Three Celebrations, All to
be Observed Here.

ON DISEASE PREVENTION

Health Topics Will be Discussed at
Public Meeting—Riley Day Cel-
ebration Planned.

The first eight days of October are usually busy ones for Hoosier school children and this year will be no exception. In the first octette of days in October, there are no less than three special days which are observed throughout Indiana and which will be fittingly remembered in the Rushville schools.

Superintendent J. H. Scholl said today that recognition will be taken by the schools of Disease Prevention Day on the first day of October, James Whitecomb Riley's birthday on the seventh day and Fire Prevention day in the eighth.

Disease Prevention Day will not be confined to the school alone, but will take on the aspects of a city-wide celebration. The children will be taught the lessons of the day and shown the value of good health. About time for the close of school in the afternoon, there will be a parade of school children bearing placards with appropriate inscriptions.

In the evening a public meeting will be held in the Graham Annex auditorium at which health topics will be discussed. Although the speaker's name is not yet known, it is assured that a physician of wide reputation will be brought here to address the meeting.

The celebration of Riley's birthday will be under the auspices of the Parent-Teachers association of the high school. It will consist of a program given on the night of his birthday anniversary. Those who want to make the celebration a notable one are arranging a program of Riley numbers by Rushville artists and it is certain that a very enjoyable evening's entertainment will be arranged, it is stated by officials of the association.

Fire Prevention Day will be the day following Riley's birthday. The observance will be in accordance with a proclamation of Governor Ralston. On that day the local teachers will discuss with the pupils the necessity for guarding against fires which originate from carelessness and the great loss that results each year from this source. Fire drills will also be held in the schools.

On that day the people of Indiana are asked to remove all trash and other debris in which fires might start and to see that the proper safeguards are placed around stoves and furnaces before they are put into winter use.

W. E. Longley, state fire marshal, has been sending literature throughout the state to teachers and others and has personally written to them to ask them to co-operate in the statewide movement to prevent fire losses next year. Special attention has been called to carelessness which results in the majority of the fires in this state. It is said that practically all fire losses could be avoided if proper precautions were used to prevent stoves from overheating and if trash and rubbish was removed from likely places of origin.

The fire marshal said he would be glad to send programs and materials to any of the teachers in the state, who desired to celebrate the day, or to any organization which intends to

Clyde Wilder's Pool Room and Barber Shop Catches Fire and Other Structures are Endangered.

LOSS \$1,500; INSURANCE \$800

But for the timely assistance of the bucket brigade in Homer late Friday afternoon, several buildings might have burnt down when the pool room and barber shop of Clyde Wilder caught fire and was destroyed. Several nearby buildings caught fire, but the blaze was extinguished and no damage was done except to Wilder's building.

The building was owned by Wilder and he operated a pool room and barber shop in it. The loss is estimated at fifteen hundred dollars, with eight hundred dollars insurance.

The fire was first discovered in the roof and had gained such headway that it could not be put out. The cause for the fire cannot be fixed unless it started from a spark from a Pennsylvania engine. The railroad track is not far from the Wilder building. The Manila fire brigade was called, but arrived too late to be of any assistance in saving the Wilder building. The Manila fire fighters, however, did valiant service in keeping nearby buildings from being damaged.

WILL REPRODUCE 1816 CONVENTION

National Patriotic League Will Show
Scenes at Corydon 100 Years
Ago in Motion Pictures.

MALE DESCENDANTS WANTED

The National Patriotic League of Washington, D. C., will reproduce in motion pictures the Indiana Constitutional Convention of 1816 at Corydon, Ind., between Oct. 1 and Oct. 15. The idea has been suggested that the lineal male descendants of the signers of the 1816 constitution pose for the reproduction of the convention picture as it would give the reproduction greater historical value.

The league favors the suggestion and would like to have all lineal male descendants of the signers of the constitution of 1816, who are desirous of posing in the reproduction and care to volunteer their services, write to the Indianapolis office of the league. In as much as the time is short and the league desires to get the cast together, it is necessary that this be done at once.

LAST INNING FOR "TREE DOCTORS"

Motion For New Trial of Case in
Which They Sought to Collect
\$493.55 From City Overruled.

DEMURRER IN CONTEST CASE

Defendants Argue Race For Prizes
in Newspaper Subscription
Contest Was Game of Chance

A demurrer to the complaint in the case of Miss Louise Kenner against James E. Naden, publisher of the American, and others, in which \$500 damages are demanded, was argued before Judge Sparks this morning, but no ruling was made. A number of other actions were acted upon today.

The suit against the American is the outgrowth of a subscription contest conducted, by the American, in which the plaintiff was a contestant. The demurrer says that the complaint does not assert "facts sufficient to constitute a cause of action."

It is also stated that "said complaint on its face shows that it (the contest for prizes offered in the subscription contest) was a game of chance and therefore a gaming contract, which is prohibited by law, and that all such contracts are against public policy and void."

Judgment for the plaintiff in the sum of \$1,263.98 was entered by agreement in the suit on notes of Reeves & company, a corporation, against William E. Roth and Clifford Benning, in which \$1,600 was demanded.

The "tree doctors" case against the city had its last inning in the circuit court this morning when a motion of the plaintiffs for a new trial was overruled. The suit was brought by the State Forestry Company of Indianapolis against the city of Rushville to collect a bill of \$493.55 for work done on trees in the city park. On June 18 of this year the court found for the city for costs. The motion was overruled with exceptions to the plaintiff.

The court ordered judgment on the verdict of \$62.25 for the plaintiff in the case of William P. Lucas against A. P. Walker.

A petition filed by Blanch Wolverton against Clayton Wolverton to modify a divorce decree was dismissed this morning.

In the two cases brought by the city of Rushville against the state public service commission for an injunction and a review of the order, which involves the orders of the commission raising the price of the gas for the Central Fuel and People Natural Gas companies, the demurrer filed by the defendant was withdrawn. The defendant defaulted in the divorce case of Violet Hendricks against Elmer Hendricks and the prosecutor was ordered to appear. The same record was made in the divorce suits of George Wolf against Sarah Wolfe and Alonzo W. Sleeth against Belva N. Sleeth.

The suit on notes of Harry McDaniel against A. P. Walker and Albert M. Walker, in which \$1,100 was demanded, was dismissed by the plaintiff at the plaintiff's costs.

The suit of John Power and W. P. Jay against James F. Weidner and Clarence Weidner for an accounting, dissolution of partnership and a receiver was dismissed.

The suit on notes of the Franklin county national bank against Robert Jinks in which \$312.20 was demanded, was dismissed and the costs paid.

Miss Beatrice Mack left this morning for a visit with friends in Marion and Hartford City.

MANY CHANGES IN SCHOOL LAW

Agriculture And Domestic Science
Will be Taught in District And
Township Schools

HELPFUL TO TEACHERS

Many Disappointed Today When
They Found There Was No Ex-
amination as Usual.

Certain important changes in the matter of qualifications for teachers in the public schools of Indiana and in the manner of taking examinations and signing of contracts go into effect this year as a result of a new law passed by the last legislature. County superintendents will call attention to these changes as vitally affecting the teachers. Many of these changes, at least, are of such a character as will raise the standard of teaching and hold the teachers more strictly to account.

Several teachers were disappointed today because they had not taken account of the changes in the school law. Several came here with the expectations of taking a teachers' examination. But on arriving here, they learned from County Superintendent C. M. George that the amended school law which took effect the first day of this month provided there shall be no examination in September, but that one shall be held the last Saturday in October. Then there will be none until the last Saturday in January, 1916.

The first joint township institute was held today in the teachers' examination room. Teachers of Union, Jackson and Ripley townships attended. The institute was called to order by the county superintendent and John Geraghty was elected chairman and Clara Herbst secretary.

Some of these changes are outlined as follows:

Agriculture and domestic science must be taught in all district and township schools.

Industrial arts and domestic science must be taught in all grades in the city schools.

Every commissioned and certified high school must offer one full year's work in domestic science to girls and of either agriculture or industrial arts to boys.

Every teacher, city or county, required to teach one of these special subjects must hold a license in the special subject or subjects he or she is required to teach. These licenses must be attached to regular certificates at the time of signing contract.

By provision of the state board of education every teacher in a township commissioned high school must have the O. K. of the county superintendent. The intention of this ruling is to prevent teachers being given positions to pay political debts or for similar reasons.

There will be no September examinations under the examination law, but there will be one in October. If any emergency vacancies occur during the school year they may be filled on permit issued by the county superintendent which permit must expire at the date of the next general examination.

No such permit is issuable to a teacher who has failed in the examinations of the current year.

All state licenses must be countersigned by the county superintendent in the county in which they are to be used before the teacher can sign a contract.

The 1915 law making the above important changes becomes effective for the coming school term.

City institutes will now be com-

BUT OFFICIALS ARE DUBIOUS

(By United Press.)
Brownsville, Texas, Sept. 25.—Enemies of Carranza who fear his recognition by the United States, organized the attack on American soldiers at Progreso yesterday, according to the official explanation made to American military officials today by J. L. Darza, Carranzista counsel here.

Darza explained further that Mexican soldiers did not drive bands of marauders from the banks of the Rio Grande through fear of being fired upon by American soldiers if they began firing.

Despite this explanation officials here are positive the attack was made by Carranzista regulars, the situation is growing tense. Everything was quiet along the river today but 300 soldiers and armed citizens are constantly on guard.

Mercedes reported today that 28 Mexicans were killed and wounded in the Progreso fighting.

Crowds Parade Streets Friday Night

NEWSPAPERS ARE CAUTIOUS

(By United Press.)
Athens, Sept. 25.—Great crowds paraded the streets last night and today in war demonstrations while automobiles dashed about the capital carrying officers responding to the call for mobilization of the Greek land forces.

Demonstrations occurred before the French, Italian and English legations. The crowds carried Greek flags and those of the allied nations. The war offices were not closed during the night.

Newspapers are commenting cautiously upon Bulgaria's move and expressing the hope that the Bulgarian mobilization order does not mean that Czar Ferdinand intends to start a third Balkan war.

INDICTS FARBER FOR PERJURY

Marion County Grand Jury Returns
True Bill Against State Wit-
ness in Bell Trial.

BACKED DOWN ON TESTIMONY

Night Sessions Loom Large When
Jury Makes Another Request
to Hasten the Case.

(By United Press.)
Indianapolis, Ind., Sept. 25.—Harry Farber, saloon keeper, who testified yesterday as a state witness in the election corruption conspiracy trial of Mayor Joseph E. Bell, was indicted today by the Marion county grand jury, charged with perjury.

Farber's testimony yesterday did not agree in important details with his evidence given before the grand jury that indicted Bell, Thomas Taggart and a hundred others. The grand jury that acted today is not the same that returned the conspiracy indictments.

Several other state witnesses have failed to live up to the expectations of the state and Deputy Prosecutor Roach yesterday declared that prosecutions might follow.

Farber yesterday testified that he gave William Kissel, who has the Indianapolis city mule contract, \$25 for the campaign. He denied, however, that Kissel had threatened to have the police "lay on him" if he didn't pay. Prosecutor Rucker read what he said was Farber's grand jury evidence to the effect that Kissel had made such a threat.

At that time Roach intimated an example might be made of witnesses who were "backing down."

Farber was arrested and held on \$2,500 bond. He has arranged to give bond.

Prospects of night sessions in the election conspiracy trial of Mayor Joseph E. Bell loomed up again today when the jury repeated its request. The jury wishes to hasten the trial for its members apparently are weakening under the strain.

Stanley M. Timberlake, tel juror who recently suffered from nervous breakdown, called a doctor again today. Another juror is ill but his name is withheld. Many wore dark glasses and eye lashes for they are forced to face a bright light.

Thirty saloon keepers were examined by the state today. They testified to contributing from \$5 to \$25 to the Democratic campaign fund, but none testified that he was threatened.

MUST GET THEIR ASSENT

Loan Commissioners Present Ameri-
cans' Offers to Governments.

(By United Press.)
New York, Sept. 25.—The Anglo-French financial commissioners were reported today to have placed before their respective governments the terms upon which the American bankers will make the huge war loan. These terms are different from those asked by the commissioners and the assent of the home government is necessary to their acceptance.

Rev. G. R. Powell, the new minister for the Morristown United Brethren Circuit, comprising the churches at Morristown, Gwynneville and Blue River Chapel, has arrived to assume his pastoral duties, removing his family from Cowan, Ind., to Morristown for residence during the term of his ministry there.

EVERYBODY DANCES AT THE EXPOSITION

Modern Steps Are no Longer Fad at Exposition; They Are an Institution

DANCE HALLS ARE POPULAR

(By United Press.)
San Francisco, Sept. 25.—Literally everybody is doing it. San Francisco, where the "modern dance" fad originated, has gone stiff, stark staring mad over it. It is no longer a fad; it is an institution.

From the cradle to the grave—at least as far as victims' ages are concerned—the modern dance has seized the exposition city. In every place, where old and young congregate to while away pleasant hours, the one step, tango, fox trot, and so on ad infinitum are in full wide-open swing.

The Exposition nightly has its dance-mad throngs. Your native son—or daughter—heads at once for the dance hall; the wonders of the Exposition are an old story to the native naught interests or amuses him but the tango parlors. Down town, in the lobster palaces it is the same.

One night on the same dance floor a little miss—not a minute older than 4 years—tripped the one gleefully with her mother, while close at hand a white-haired man, perhaps 65 or 70, with his spouse, seemed to be having the time of his gay second youth doing the same thing.

The baby couldn't make her feet behave. When the strains of the orchestra died away, she insisted on continuing, and when her mother made her back way to her dinner, the lot paraded to the center of the floor and staged a solo dance that made some of the older folks envious. She was not on exhibition; the dance was in her blood tingling for expression, like the sparkle of wine. To her the modern dance was the expression of sheer living.

WASHINGTON WIGWAGS

By
GEORGE MARTIN
Mr. Consul Charles Brissel brags from Bagdad that the folks at Hila on the Euphrates are building houses with bricks from the "hanging gardens" of Nebuchadnezzar. We know of some men who have just built a Temple of Shame in the "hanging gardens" of Georgia.

Another Turkish tribe Consul Brissel got acquainted with weaves houses out of hair. Can't you almost hear Mrs. Tenny Begun telling

hubby that she's just made his pet camel over into "the cutest bungalow?"

And just think! In summer they can climb into their cottage, ride him to the seashore, kill him and weave him up into six rooms and a bath.

The children can pick up a couple of stray dogs along the way for a new playhouse.

The barber of Bagdad doubtless has made a vast fortune by this time out of hair-lumber.

And by way of friendly suggestions, if Consul Brissel has any little Brissels about, he had better look to their safety.

Mr. Consul Marsh at Ottawa remarks that Ottawa street cars are equipped with clocks. Thank fortune no self-respecting American street car company would so sinfully waste space on a clock when it might just as well have the room to ram in another passenger.

Mr. Consul Bob Honey writes that Madrid merchants measure Spanish wine by "Hecoliters." We think he must mean "Hicoliters."

IS WAGING FIGHT ON HOG CHOLERA

Dr. L. C. Kigin, Formerly of This City is Co-Operating With Department County Agent.

VACCINATION DEMONSTRATED

Dr. C. L. Kigin, of Purdue University, has been in this county for several days in the interest of combating hog cholera and in company with County Agent Walter McCoy, has been making trips to various localities. The hog cholera situation here is very acute and there are probably two hundred cases at the present time. This means that every precaution must be taken to prevent the spread of the disease or there will be much loss.

Friday afternoon Dr. Kigin, assisted by the County Agent, held a vaccination demonstration on the William Gentry farm, and there were many farmers present to witness the work. Tonight in the building at Clarksburg a meeting will be held at which time useful information for the prevention of the spread of cholera will be given out. A large attendance is expected.

HOW INVADERS WOULD APPEAR

New Yorkers Get Glimpse of How It Would Seem to be Invaded When Guardsmen Parade

10,000 MEN PARTICIPATE

Their Maneuvers Are on Largest Scale Ever Attempted in The United States

(By United Press.)
New York, Sept. 25.—Those New Yorkers who were interested in seeing what a hostile army marching into New York would look like, gathered at Van Cortland Park today and saw. The army composed of about 10,000 National Guardsmen from the New York city boroughs and their maneuvers were said to be on the largest scale ever attempted in the United States.

Having earlier in the day marched off into the woods to the north of the park, in the afternoon the army marched back, while Gov. Whitman, 2,000 other special guests and many thousands of the public looked on and cheered. First came the screen of cavalry and the advance guard, with their flanking parties and after them the regular infantry guard, followed by the main body of troops, the rear guard trailing all.

The men, horses, artillery, ambulances and other equipment occupied two hours in their advance upon the park.

Van Cortland looked like an armed camp as early as 10 o'clock. Some of the cavalry and field artillery started operations the night before, the latter giving a demonstration of the noise that probably would be heard the night before in case a hostile army actually did invade the city. During the morning there were shows going on in a dozen rings. The engineer corps built ponton bridges and laid mines, the artillery drilled and fired blank cartridges from behind neighboring hills, one squadron of cavalry gave rough riding exhibitions, twelve ambulances dashed about picking up imaginary dead and a whole battalion attacked mess in furious fashion.

It was a very warlike day and very successful for purposes of demonstration.

FARM CONGRESS TO BEGIN SUNDAY

Key of Pure Gold Taken From Colorado Mountains Will Open Gates to The Exposition

MANY EXHIBITS FOR DENVER

(By United Press.)
Denver, Colo., Sept. 25.—A key of pure gold taken from the mountains of Colorado will open the gates of the International Soil-Products Exposition and Farm Congress here tomorrow. Dr. W. H. Sharpley, mayor of the city will turn Denver over to the managers of the great exposition and Gov. George Carlson will extend the hospitality of the whole state to the farmers of the world. Others who will make speeches of welcome are John Vallery, chairman of the local board of managers, Thomas B. Stearns, president of the Denver Chamber of Commerce, W. I. Drummond, chairman of the Board of Governors of the Exposition and Congress, and B. F. Hanaford, director general of the exposition. The exhibits are all ready for the inspection of the 200,000 visitors who are expected by the managers of the exposition.

These exhibits will include a \$20,000 government display, the largest ever made in this country, exhibits from 20 states west of the Mississippi and many foreign countries, and will include all soil products raised with or without irrigation.

SPENT LARGE SUM TO FIX UP TOWN

Harrisburg Invested More Than \$5,000,000 And Now it is Celebrating The Events

SOME EYESORES REMOVED

(By United Press.)
Harrisburg, Pa., Sept. 25.—Harrisburg has been celebrating for three days.

Back in 1910 Harrisburg discovered that as a city it hadn't much to brag of except being the State Capital and that it scarcely deserved that honor. Only a mile or two of paved streets; no parks worthy the name; no playgrounds, drinking water heavy with coal dust and disease germs—everything, in fact, just about what it ought not to be.

So Harrisburg borrowed \$1,000,000 and proceeded to dress up. Later it made other loans, until the aggregate was \$2,431,000, while that much more was spent by individual property-owners paying for improvements in front of their real estate.

The city has more than seventy miles of paved streets, mostly sheet asphalt; far more than 1,000 acres of public parks, most of which it owns outright; a plant which filters all water used in the city; summer playgrounds and swimming pools for children; a summer camp for children; tennis courts and golf links for the adolescent and adults, and a river front and river basin which has been improved in a manner unique in the entire world.

The plans originally made in 1901 have been completed, which is the wherefore of three-day celebration ending today. Other plans have been made for the future and probably will be executed, for a remarkable thing about the expenditure of the millions of dollars has been that no one ever has yelled "graft."

The three-day celebration includes unveiling of markers, parades, addresses, etc. concluding with a street carfare in Market Square tonight.

WILL CALL ON JAPAN TO HELP OUT IN WAR

Allies Will Ask Eastern Power to Aid in Checking Threatened Drive on Turk Capital

OR SEND TROOPS TO RUSSIA

(By United Press.)
Tokio, Sept. 25.—The allies are reported to be preparing to call upon Japan to send troops to help block the threatened Austro-German drive on Constantinople. No official confirmation is obtainable here but the report attracted considerable comment today. If the allied diplomats make such representation, there efforts most certainly will result in failure.

It was suggested that Japan send troops to the Dardanelles to aid in a quick dash on Constantinople or send enough divisions to the Russian front to keep the German armies there.

EXPLAINS IDIOTIC YANKEE PHRASE

German Military Attache Says he Did Not Refer to All Americans in Letter to His Wife.

GOING BACK TO WASHINGTON

(By United Press.)
San Francisco, Sept. 25.—Declaring that his phrase, "Idiotic Yankee" did not refer to the American people as a whole but only to a "few individuals" and was intentionally distorted by the British. Captain Fritz Von Papen, German military attache at Washington, said today he intended to return to his post when his "vacation" is over.

"To think that a man in my position should make such a general statement is the limit of absurdity," he said. "The much discussed letter was addressed to my wife. In passing it may be remarked that the publishing of a man's letters to his wife is the very poorest form."

Administrator's Sale of Personal Property

CARRANZA CHANGES LOOK TO BE DIM NOW

New Turn of Affairs Since Attack Near Progreso Friday Make His Recognition Doubtful.

(By United Press.)
Washington, Sept. 25.—The likelihood of United States recognition of General Carranza was lessened today. A sharp turn of the tide of official sentiment against Carranza was evident.

Alleged attacks on United States soldiers yesterday at Progreso by Carranza troops was a factor in the change. The war department was awaiting a report from General Funston.

Walter Conway narrowly avoided an accident by presence of mind this morning when the pan under his automobile caught fire while he was driving Fifth street between Main and Morgan. He snatched the pan from the machine and prevented the gasoline from igniting.

Amusements

The Gem offers for Saturday night patrons the two-act drama, "The Opening Night," with Adele Lane in the stellar role. It is a story of the stage which shows life behind the scenes when the mask is off. It is classed a dram of passions. Adding diversity to the program, the Gem tonight will have a comedy, "His New Automobile," in which Jane Gail and King Baggott have the leading parts. Monday evening Marie Walcamp will be seen in "The Toll of the Sea," the most stupendous sea picture ever made by the Bison company.
The Princess will show a comedy and a drama tonight. In the former Mr. and Mrs. Sidney Drew, who are favorites with local movie patrons, will have the first parts. The picture, "The Honeymoon Baby" deals with the funny situations which develop when newlyweds borrow a baby. Richard Travers and Lillian Drew will be seen in the two-part drama, "Jane of the Soil," a story of mountain folk, in which the scene shifts to a college town when Jane, the heroine, gets opportunity for a college education. It is a story full of thrilling action and emotion. Monday evening the spectacular five-act drama, "Women and Wine," will be the bill.

MANY CHANGES IN SCHOOL LAW

Continued from Page 1.
pulsory and will be conducted along the same general lines as the county institutes. The textbooks that are to be made the basis of the work in both city and township institutes are the following: "The Rise of the American People," by R. G. Usher and "The Teacher and the School," by C. P. Colgrove. These city institutes will constitute a new feature, or amount to that, as teachers must attend them monthly or forfeit a day's pay. In addition to not forfeiting pay, if they attend, teachers will receive additional pay for attendance.
There is another new ruling that will interest teachers. Under this ruling they will not fail wholly at an examination if they do not fail in more than two subjects at the next examination and will not have to take the entire examination over as heretofore. Under the old law a failure in one subject meant a failure in all. Also, if the state board of education so rules, the grade examinations may be taken in two sections, in one month and the other the next month.

The Chinese government is con-
sidering the purchase of 100 sub-
marines at a cost of about \$75,000,-
000. Secretary Daniels thinks the
expenditure of \$20,000,000 for
"subs" will be sufficient for both
coasts of this country. That will
build about 15 of the type of the
one now being constructed by this
Government. Even China plans to
out-distance us.

Connersville thinks it is a big

The Postmaster at Seymour has
received notice that bids for the
construction of the new post office
building in that city will be opened
October 30. The contract will be
awarded soon after and work on the
structure will begin later, probably
not until next spring. The appro-
priation for the building and site is
\$75,000. To show how slow the
government is in this line of work it
is sufficient to say that the appro-
priation for the Seymour building
was made in June, 1910. A year la-
ter, in June, 1911, a site was pur-
chased for \$12,000. Now over four
years have passed before bids are
received for the building.

Secret of Strength.

(Cuba (N. Y.) Patriot.)

Germany alone of the great pow-
ers now at war, is sufficient within
herself. No other nation of those
engaged could so well have with-
stood the commercial isolation en-
forced upon that empire. She alone
has been able to supply all her own
needs. Naturally, she has desired
opportunity to buy food and ammu-
nition from the outside world, but
since it is denied her she is getting
along without them. Similarly situ-
ated in a measure, but not cut off
to such a degree, Russia is crum-
bling before her advance, largely, it
is admitted, for lack of military
supplies.

Why is it that Germany is so
much better able to withstand this
isolation, to depend upon herself?
The answer is found in a few
words; Her Protective Tariff. For
near two generations Germany has
had a policy of Protection, sufficient
and continuous. Under that Protec-
tion she has fostered and developed
to a high degree the manufacture of
everything she needs, either in
peace or war. Meanwhile, under
the same policy, she forged ahead
industrially and commercially as no
other European nation has. In
many respects she surpassed the
United States.

If there had been yet needed any
argument to prove the wisdom of
the Protective policy, it is found in
the wonderful ability shown by Ger-
many in the present war to supply
her own needs, and supply them
with an abundance far beyond the
reach of her enemies, who have had
the markets of all the world open
to them.

AN APPEAL TO HATE.

(Liberty Herald.)

The Richmond Palladium is out in
a scare head article about "How
Watson Boses the Indiana Politics,"
intimating that the Rushville states-
man, ex-Vice President Fairbanks,
James P. Goodrich and Joe Keating
are in great conspiracy to control
and boss State Politics and do a lot
of terrible things too numerous to
mention. The article is an appeal
to hate, prejudice and senseless
malice, founded on a baseless chim-
era at assumed villainy. It is the
old game of the "Pal" to create
strife among the Republicans and to
please the Tom Taggart and Don
Roberts Democracy in Indiana. That
gag has had its day in the sixth dis-

NOTES OF THE BELL TRIAL

Indianapolis, Ind., Sept. 25.—

There are indications that one of
the biggest surprises of the many sprung
by the defense lawyers in Mayor
Bell's trial was a bluff, pure and
simple put over with consummate
skill.

"How did the defense get the
transcripts given before the Federal
grand jury?" was the startled
whisper about the Criminal court
room after Attorney Ryan had read
to Bud Gilson, a confessed conspir-
ator and state witness, what pur-
ported to be extracts from his evi-
dence before the federal jury. The
defense repeated this procedure
when Ernest Roeder, Gilson's for-
mer partner in the saloon business,
whose relationship to this trial is
identical with Gilson's took the
stand.

Since evidence given the federal
grand jury is most carefully guard-
ed in District Attorney Dailey's of-
fice and furthermore is under lock
and key of the federal government,
the supposition is that the defense
made a good guess as to Gilson's
and Roeder's testimony there, or,
which is more probable—obtained
from both these state witnesses im-
mediately after they appeared be-
fore the federal jury, a detailed ac-

count of their evidence. The attor-
neys defending Bell are closely as-
sociated with the case that doubt-
less they had the case in hand even
before it was taken before the fed-
eral grand jury.

At the beginning of third week of
the trial (last Tuesday) it appeared
that the state had in reality just
started its case. The trial then
looked good for four weeks more, if
not longer.

The following interesting bit of
dialogue conducted by Attorney
Spaan with Arthur Robinson, an-
nounced candidate for U. S. Senator
drew a laugh.

"You are interested in politics,
are you not?" asked Spaan.

"Yes," answered Robinson in loud
tones.

"You have announced yourself as
candidate for nomination for United
States Senator?"

"Yes," beamed Robinson to the
jury.

Spaan crossed his legs.

"Do you think you can beat Jim
Watson for the job?" he asked.

"I object," shouted prosecutor
Rucker.

"Yes," yelled Robinson.

"I withdraw the question," said
Spaan, uncrossing his legs.

"We withdraw our objection,"
said deputy prosecutor Roach with
a bow.

PURDUE STUDENTS

Prohibits Them From Engaging in

Claiming 15 Hours Time

MUST KEEP CLASS STANDING

(By United Press.)

Lafayette, Ind., Sept. 23.—The
seeker after college honors at Pur-
due university has met strong op-
position in a faculty ruling just put
in to force which prohibits any
student from engaging in certain
major activities claiming fifteen or
more hours time a week and provid-
ing that any student having defi-
ciencies in his class standing shall
be barred from these major college
activities.

President W. E. Stone in a state-
ment issued today said that the new
ruling was passed to counteract the
tendency of student activities and
organizations to absorb too much of
the student's time.

there will be special military and naval demonstrations for the instruction and interest of the old soldiers. Submarines, torpedo boats, gunboats and other small craft which can come up the Potomac will be anchored off the harbor front for their inspection and review. Hydroplane and aeroplane flights and various other features, which illustrate the progress made in warfare and its implements since the great Civil strife will be shown. Troops from Fort Myer and other posts will go through a series of maneuvers either on the monument grounds or the polo grounds along the river front.

An elaborate system of registration has been arranged in such a way that the old soldiers will be able to meet comrades of their war time companions and regiments, no matter how widely they have been separated during the last half century. Moreover, there will be "get-together camp fires," in the evening which will be addressed by various old commanders and high government officials. The veteran sailors will also have their "dog watch" during which Secretary of the Navy Daniels will address them.

Many Confederate leaders have been invited to attend the encampment, and it is probable several of them will be on hand. As this is the last encampment, that will be held in Washington, the old Union soldiers are straining every effort to be present. Incidentally this is the 49th annual meeting of the Army and the ranks are thinning so fast that there probably will be very few more encampments.

In all there are forty-six different departments of the army. David J. Palmer of Des Moines Iowa is the commander-in-chief. Among the great Union war leaders present will be the only two living corps commanders, General Ames, of Mississippi and Gregg, of Pennsylvania, and John T. Wilder of Knoxville will be present.

Assist Your Stomach

To Get Rid of the Poisonous Gases and Fermenting Food

A good long fast will do this sometimes. A trip to the mountains. Tramping. Roughing it. Yes, very good remedies. But are you going to avail yourself of either one of these remedies? No? Then the next best thing is to try a bottle of Peruna. Take it according to directions. You will have a natural appetite. All gas and fermentation in the stomach will disappear.

Read what Mrs. Emma Bell, Box 204, Fort Pierce, Florida, says: "I was taken suddenly with swelling of the stomach and bowels, and great distress. Very painful. Three doctors gave me no relief. Could not eat anything. Everything soured. I was starving to death. I began taking Peruna and was soon strong enough to do work. After taking five bottles I can truthfully say I am well. I gained twenty pounds."

SIX-RUN LEAD BIG HANDICAP

But Knights of Columbus Threatened Elks Near End of Fraternal League Game Friday.

ELKS WON IT IN THE FIRST

John Geraghty Gets Credit For Only Home Run in League Games, Ball Being Lost in Grass.

A six-run lead in the first inning was too much for the Knights of Columbus in the Fraternal League game at Edgewater park with the Elks Friday afternoon. The final score was seven to three, but the game was well played and was far more interesting than the score would indicate.

Perry O Neal opened the game for the Elks with a line single to left, Orme was safe on Ed O'Neil's fumble, Hawk struck out and Woods doubled to center, scoring O Neal and Orme. Green was hit by a pitched ball, Pearsey singled, scoring Woods and sending Green to third. Innis singled to right and Green scored.

Brann struck out and Osborn doubled to left. Woods and Innis scoring on the hit. Osborn was caught trying to take third, Doll to O Neal.

In the second inning John Geraghty was credited with the first home run of the season when Innis lost the ball out in left field.

The Elks marked up another one in the fifth. Brann started the fireworks with a single to left. Osborn was out, McKee to. Doll. O Neal walked and Orme singled to center, scoring Brann. Hawk was out, O Neal to Doll. Orme was caught trying to steal second, Joyce to Mullins.

The Knights of Columbus threatened to start something in the sixth when they bunched three hits and scored twice. Joyce went out, Osborn to Woods. Mullins singled to center and Geraghty followed with a terrific double almost in the same spot, Mullins taking third. Big Ed O'Neil arose to the occasion and smashed out a braid drive for one base to center and two runs were scored. Fitzgerald went out, Pearsey to Woods and Collier flew out to Brann.

LAST TOUCHES FOR VETERANS

Washington is Finishing Arrangements For Reception of G. A.

R. Encampment Crowds

IT WILL BEGIN ON SUNDAY

Chief Feature of Great Spectacular

Interest Will be Grand Review

on Next Wednesday

By F. A. CONNOLLY

(U. P. Staff Correspondent.)

Washington, Sept. 25.—Draped in bunting and with flags flying, Washington is today putting on the last touches for the reception of the Veterans of the Grand Army of the Republic whose annual encampment starts here tomorrow and lasts throughout the week. This probably will be the last encampment held in the Nation's Capital, and nothing is being neglected to make it the most memorable coming together of the old soldiers since the Civil war.

With the cry of "On to Washington" once more ringing throughout the land, but this time from the throats of Union soldiers instead of Confederate, a host of thirty thousand and old warriors is expected to storm the city. Alone with these are expected to come nearly fifty thousand relatives and a half dozen auxiliary societies which hold their annual encampment with the G. A. R. There will be a hundred thousand visitors in the Capital tomorrow night.

The chief feature of the forthcoming Encampment and the one which will be of great spectacular interest will be the Grand Review which will take place next Wednesday. This parade of the Veterans will mark the 50th anniversary of the Grand Review of the victorious troops of the Union Army, held in Washington at the close of the Civil War. It is a sad commentary on the grayed ranks to know that the line of march which was practically continuous for two days a half century ago when reviewed by President Johnson and his cabinet, will this year be reviewed by President Wilson and his official family in less than four hours.

Gen. Nelson A. Miles, retired has been selected as the Grand Marshall of the pageant, and escorted by his naval and military aides will head the parade from the Peace Monument, at the foot of the Capitol grounds, up historic Pennsylvania Avenue to the State War and Navy building. The court of honor will be in Executive Square, which is along the last two blocks of the line of march.

Here the President, with the members of his cabinet and the various diplomatic and Army and Navy officers will review the veterans. During the Encampment week

HOLDS MOTHER'S RECORD IN WAR

Mrs. Mary Fury of County Galway, Ireland, Gives Ten Sons to The British Army

AND THAT'S NOT ALL EITHER

She Has a Daughter Whose Husband And Family Have Also Joined Fighting Forces

BY WILBUR S. FORREST.
U. P. Staff Correspondent.

London, Sept. 10. (By Mail)—The mother's record in this war is held by Mrs. Mary Fury, of Loughrea, County Galway, Ireland.

She has given ten sons to the British army. Five are dead in France. One lies in a hospital recovering from wounds. One is a prisoner in Germany. One remains fighting and another is nursing a right arm shattered by a bullet.

This is not all of Mrs. Fury's fighting family. She has a daughter, Mrs. Mary Cossey, Romford, England. Mrs. Cossey's husband is one of Romford's 2000 fighting men at the front. Several weeks ago, Mrs. Cossey supported her large family of small children with the aid of two brothers-in-law. Now they have gone to war and she is struggling on alone.

What Mrs. Mary Fury and Mrs. Cossey have suffered in England's greatest crisis is the story of hundreds of homes of the working classes in the British Isles. A similar story can be told in a smaller way from the mansions of British aristocracy and from the "castles" of the middle classes. But it does not leave the sting of poverty that confronts Mrs. Mary Fury, of county Galway and her sisters of the lower classes. She will suffer until her body is planted in Irish soil and with her, thousands of other women whose husbands have left the spade and shovel.

If conscription comes in Great Britain it will not find the husbands, brothers and sons of the Mary Furies and Mary Cosseys among the "slackers."

The laboring element is becoming gradually the scarcest element in Britain. Cities towns and villages alike have emptied their houses and streets. These men are today in the majority in Northern France, The Dardanelles and other theaters of war. The upper and middle classes are in the hopeless numerical minority.

There is one obscure little street in Walworth, a suburb of South London, that tells the tale. This street is in the heart of the "working" locality. It is called "Trafalgar street" and is simply two rows of 150 small brick houses and shops built closely together. The war office has distributed cards of honor for every family that sends a man to the army. There are 195 cards of honor in the windows of these little shops and houses. Children play with cocked hats and wooden guns in the narrow street. About half of them will never see their fathers again. They will go into the factories their fathers left as soon as their arms are strong enough.

The war has brought all British classes together—in the trenches. It has brought all classes at home down to the same place—during the war. But what is to become of the Mrs. Furies and Mrs. Cosseys after the war, is a question that is hard to answer.

CO-OPERATION HELPS PRISON

State and Federal Authorities Study Problems Together and Will Make Experiment

WILL BE TRIED IN GEORGIA

Authorities Will Establish Portable Road-Building Camp and Work Negro Convicts.

(By United Press.)

Washington, Sept. 25.—Two new interesting and important features have been added to the history of the convict problem in the United States.

Actual co-operation between state and Federal authorities in the care and management of state convicts.

The application, on a large scale, of the honor system of government to negro convicts.

This work is about to be taken up by the authorities of Fulton county, Georgia, and the Office of Public Roads of the Department of Agriculture. After a year's study of convict labor conditions throughout the country as applied to road building, J. E. Pennybacker, chief of the above division, and H. S. Fairbanks, highway engineer, who will be in actual charge of the work, have completed plans for the establishment of a portable road-building camp, the buildings are to be constructed on the portable plan and models for use at exhibitions and county fairs have just been completed at the bureau. They are so arranged that the sides can be readily taken out and screens substituted and besides the bunk rooms there will be the kitchen, showers, and a recreation room. The sanitary work has been planned by Passed Assistant W. F. Draper of the Public Health Service and is patterned after the method employed in army camps.

There will be fifty convicts in the camp, who will do all the work of assembling the buildings and striking them whenever it is necessary to move. It is believed that one day will be sufficient to make or break camp, so carefully and ingeniously have the buildings been constructed.

Officials claim a three-fold merit for their program: first, it is beneficial mentally, morally and physically for the convicts; second, it saves the state money by the introduction of more scientific methods of convict labor and of road construction; and third, it helps the state and the country by turning out a greater number of miles of good roads every year than have been built heretofore.

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these qualities, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally dull, eye-sick, wrinkled and sallow of face.
"But to get liver and bowels working as they ought, without producing evil after-effects, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble My apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though of course it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'sentinel' tablets—that's the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Sentinel tablets, which may be procured from any druggist, are worth will do will prove a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unslightly eruptions, pimples, boils, blotches, sallow or muddy skin, usually are due to a sluggish liver, a constipated bowel—and a polluted blood stream as a consequence. How foolish in such cases to resort to outward applications, which can never have natural, permanent results. If more people only knew it, there is a very simple remedy to be found in a bottle of Sentinel tablets. It is an old formula, long recognized by the medical profession, which has been put in tablet form, and at such small cost no one need now be deprived of its wonderful benefits.
"Sentinel tablets"—that's the name—contain vegetable matter, there's no habit-forming ingredient. You need not get about a dime's worth, and swallow one at bedtime to realize there's nothing quite so good for the purpose. Action in the morning is so easy, so soothing, and instead of a weakening after-effect, you feel truly refreshed and invigorated. Sentinel tablets are not only the finest remedy known for constipation and torpid liver, but offer the sanest, most sensible treatment for complexion difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "sentinel tablet" as a substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Sentinel tablets, aside from their efficacy, doubtless owe their success largely to a tendency to aid in bringing about natural functioning—instead of encouraging the "catarrhal" or chronic condition, which the membranous lining of the organs involved, they exert a healing influence. Instead of weakening, they act tone to the intestinal wall. And they work so easily and gently, they are of course preferred on this account to the violently acting purgatives. Their inexpressiveness is another reason for the popularity of Sentinel tablets. One need procure only a dime's worth, and take one tablet upon retiring, to be convinced that the ideal remedy for constipation, torpid liver and their many evil consequences, has finally been found.—Druggists Review.

NO FLURRY IN USUAL ROUTINE

During Critical Days President Wilson Sits Tight But Shows no Signs of Trouble

DOES NOT CALL ON ADVISORS

Attends Ball Games, Plays Golf And Has Resumed Theatre Going —Not a High-Brow.

BY GEORGE P. WEST
(U. P. Staff Correspondent.)

Washington, Sept. 25.—Through sweltering days of international crises, (the word is stale in Washington,)—President Wilson again has demonstrated his marvelous ability to sit tight and to think through a decision without seeing advisors and without a flurry in White House routine.

So far as visible signs go, President Wilson in these perilous days might be a quiet scholar leading a singularly uneventful and retired life in the big honey old mansion among the trees.

During the most critical days of the Arabic-Hesperian-Dumba incidents he saw secretary of State Lansing for a brief 40 minutes, ate luncheon at his own table with Son-in-law McAdoo once, and in the course of a week received formal calls lasting fifteen minutes from not a half dozen others,—all persons of no importance to whom international affairs are Greek.

Not once did the President sit across the table from an official or personal advisor and enjoy one of those loose and informal discussions that average citizens crave when confronted by problems infinitely less absorbing and momentous. One afternoon he sat through a ball game with the rotund form of Secretary of the Interior Lane beside him, but the President's shaking shoulders showed that their conversation led far away from submarines and diplomatic conspiracies.

All that policemen on the White House law and White House correspondents saw during these days was the leisurely White House routine of golfing in the morning and motoring in the afternoon. At the executive offices assistant secretaries read newspapers and talked tennis or baseball. The appointment book was nearly blank.

This does not mean President Wilson hasn't his finger on the pulse of the nation. He has imagination, for one thing, and it is declared it is just because he wants to listen to the voice of all the people that he refuses to listen to a handful who may not represent the ninety millions.

The President has resumed theatre going for the first time since the death of Mrs. Wilson. In his first week he saw a stock company in one of the old popular favorites and a vaudeville show.

There is nothing high-brow in his pleasures. No gum-chewing girl with her "steady" beside her could be more appreciative when a sleep-stick "artist" falls into the foot-light trough or reaches over and gives the orchestra leader a resounding smack.

Dr. Gary Grayson, white House physician on special details from the Navy, is the President's constant companion at golf, motoring and the theatre. Dr. Grayson has a reputation as a good story teller, and at the White House he gets lots of practice. The President loves a good story and laughs like a boy.

Washington doesn't like the President's seclusion. It likes the search light on the Washington monument at night and the Marine band. It likes fuss and feathers, and it likes White House occupants who are good subjects for endless anecdotes. But even to Washington the thought occurs that perhaps the President is giving so much to the country partly because he gives so little to Washington. The presidency is such a big job these days that the man who fills

it must neglect a few little details like supplying Washington with subjects for social gossip and giving the glad hand to a stream of leading citizens from Spoon River, Silver Springs and way points.

Those who know the President well says he avoids numerous personal interviews not because he does not like companionship, but because he likes it too well. When he opens his mind to a caller he gives and takes too many impressions. It taxes his strength and interferes with the orderly course of his thought. And so, just because he is so very human, he must give to some the impression that he is a cold-blooded thinking machine.

GARY SOON TO HAVE MANY BOULEVARDS

One of Chief Reasons Why "Magic City" Wanted to Get Into Second Class

CITY BEAUTIFUL IS PLANNED

(By United Press.)

Gary, Ind., Sept. 25.—Those who followed through the 1915 legislature the efforts of Gary to become a second class city instead of a fourth class city, and who witnesses the final success of the "magic city," will be interested to know that Gary's boulevard system is about to get its start. One of the chief reasons given why Gary should be admitted to the second class was that its park board would be empowered to go ahead with plans for a city beautiful.

Trees are to be planted soon in the streets selected for the boulevard system and gradually these streets will be improved according to the comprehensive plan.

Gary, however, finds that its plan for growth, having been prepared well in advance against the time when Gary will be as big as Indianapolis, is now really a handicap to the plans of the park board rather than a help as it should be. The plan was laid out before the boulevard scheme was conceived and Gary's outlying sections were subdivided into streets and lots long in advance. Now it is found that the streets to be made into boulevards are too narrow, and the plans of the park board are sorely limited.

Chesapeake Bay's "fish-net stakes" need regulating, thinks the War Department. Yes, we have eaten this variety, also the galvanized and india-rubber kinds, and we favor the reform.

A man in Brazil has asked the Commerce department where he can buy 85,000 razor blades. We'd like to see his whiskers.

A Netherlander has written the Commerce department for the address of whoever make "a handy folding egg boiler." We would like to glimpse the folding egg he's going to boil.

Same Netherlander wants "a perfect noodle cutter." We fear he is doomed to disappointment in this, as perfect noodle cutters have for the most part given way to the hangman and the electric chair.

Since the Commerce department has solanated the lack of Potash, we are reminded that there hasn't been much Perlmutter noticeable lately, either.

An American motor-boat engine ran 31 hours on a Chinese river, without stopping, reports Mr. Consul Hanson at Swatow. Brilliant thought. Maybe the trouble with our "demon-motorboat" engines all along has been that we didn't run 'em in Chinese. Come to think of it, they speak the language perfectly.

LATEST STEP OF POPE DISCUSSED

All Rome is "Worked up" Over His Decision Against Bigotry And Political Ultra Conservatism.

ONE EMINENT CARDINAL HIT

His Policy is to Promote Them in Order to Get Them Out of The Way—Incident Recalled

By ALICE ROHE
(U. P. Staff Correspondent.)

Rome, Aug. 27: (By Mail)—All Rome, not only Vatican circles but various shades of the White and Black party—is discussing Pope Benedict XV's latest decisive step against bigotry or more politely ultra conservatism.

As a result an eminent Cardinal has been scheduled for promotion to the position of cancelliere, quite in accordance with the Vatican political proverb: "Promoveatur ut amoveatur." Which in plain English means "Let him be promoted so he may be cleared out of our way."

At any rate Cardinal Cagiano de Azevedo credited with being one of the most liberal members of the Sacred College will be no more head of the Congregation of Clerics and Regulars. For his insistence that the clerics and all connected with the Vatican should not read the newspapers issued by the Roman Publishing Society has brought him in direct opposition to Pope Benedict XV. The order that no clerics should read even the Corriere D'Italia, Rome's semi-official clerical paper, and that other daily newspapers published in various Italian cities and of such a Black complexion that their clerical sympathies were above question, caused Pope Benedict XV to take a hand in the matter. Cardinal de Azevedo, even though cognizant of the Pope's liberal ideas and his desire that newspapers be permitted the clergy fell back upon the technical authority invested in his office and gave forth the definite order. Thereupon the Pope, whose first step upon ascending the Papal throne was to bring into accord the two elements of modernity and liberalism, graciously slated the Cardinal for promotion to the position of cancelliere. This act followed an open one of the Cardinal Azevedo who several days ago issued a circular in which he prohibited the reading of the Roman morning papers, denouncing especially one morning Catholic paper. He even condemned one which the Pope had approved.

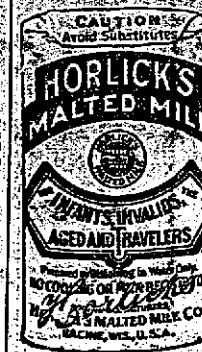

The incident has naturally given rise to much comment among anti-clericals who see in it an outbreak of certain dissensions existing in the Vatican. Pope Benedict XV, however, rather gives forth the impression that such dissension if existent will quickly disappear.

It was Pope Pius X who first permitted the order against newspapers to go forth limiting, as would Cardinal Azevedo, all clerics to the Observatore Romano. Pope Benedict has always manifested an interest in newspapers and their influences. Naturally a law so narrow as to prohibit clerics from reading daily journals was one with which he had little sympathy. His idea is that the Catholic press should become a great instrument for the good of the church and he sees no way of accomplishing this by putting a ban upon it in favor of one official evening organ.

make the day a feature for one of their programs.

Posters, carrying information "To Prevent Fires," are being sent out with instructions to post them in school houses everywhere in the state. Fire drill rules also are being sent to the schools.

"The fire loss for the last eight months is \$1,000,000, less than for the same period last year," the fire marshal said, "and educational work will help to bring about further reduction in the future." A special bulletin on "lightening losses," containing tables showing such losses in Indiana, and a plea for the lightning rod, is contained in the material being sent out.

A list of questions relating to the individual fire hazards of each home has been printed by the fire marshal and is being distributed. From this list the fire marshal hopes to obtain much information relative to methods to aid in reducing these individual hazards.

The questions include the following:

- Do you use safety matches
- Are floors under stoves protected, and how?
- How are ashes disposed of?
- Of what material is the house?
- Of what material is the basement?
- Are chimneys built on the ground or on racks?
- Are chimneys in good repair?
- Do stovepipes pass through attics, closets or unused rooms?
- Do stovepipes pass through partitions without metal protectors?
- Do you keep gasoline?
- Do you use stoves or furnaces, and what kind?
- Do you use kerosene?
- Have you any fire extinguishers?
- Do you know how to turn in an alarm?

LOOKING FOR G. H. SUVER

Public Administrator in St. Louis
Has \$2,802.50 For Him

(By United Press.)

St. Louis, Sept. 25.—James H. Newell, public administrator in St. Louis is looking for G. H. Suver, or Suver's relatives to give them \$2,802.50 and interest on the money which has been accumulating for 28 years. If no one with a legitimate claim on the money is found it will be turned over to the state school fund.

Suver lived in the Heitkamp Hotel, 28 years ago. On Aug. 22, 1887, he deposited \$4,419.18 in the Boatman's Bank and on Aug. 26, 1888, \$4,683.32 in the German Savings Institution. He has never been heard from since by either bank, and repeated efforts to learn more of his identity or where he went have failed.

MEDICINE MEN ARE CAUGHT UP

More THAN Half Hundred Companies Are Prosecuted Under Food And Drugs Act Amendment

FOR MAKING FALSE CLAIMS

Traffic in Medicines in Which Fraudulent Assertions Are Made is an Economic Fraud

Washington, Sept. 25.—More than a hundred legal actions have been terminated successfully under the Sherley Amendment to the Food and Drugs Act, which prohibits false and fraudulent claims as to curative or therapeutic effects of drugs or medicines. Criminal prosecutions against the manufacturers were brought in 25 cases, but in 31 instances the falsely and fraudulently labeled medicines were seized while in interstate commerce. Claims made by the manufacturers for the curative powers of these preparations ranged from tuberculosis, smallpox and diphtheria to coughs, colds and scalp diseases. A number of other criminal prosecutions and seizures are pending in various Federal courts throughout the United States because of alleged violations of the Sherley Amendment similar to those which have already been tried. The officials charged the enforcement of the Food and Drugs Act are of the opinion that the evils of the patent medicine business can be stopped only by the most drastic action.

It is pointed out that traffic in medicines for which false and fraudulent claims are made is not only an economic fraud of the worst kind, in that a worthless preparation that costs but a few cents is frequently sold for a dollar or more a bottle, but that health, and even life, is endangered by failure to secure the service of a physician in such serious diseases as tuberculosis, diphtheria, pneumonia and scarlet fever, until too late, because reliance may have been placed in the curative powers of some worthless preparation which is claimed to be a never-failing remedy. The deluded victim may not realize his danger until the disease has reached a

stage too far advanced for even the ablest physicians to cope with it. Effective treatment depends in most cases on applying it during the early stages of the disease.

The following list includes other preparations against which the Government's charge that they were falsely or fraudulently labeled was sustained by the Federal courts. Statements were made on the labels of, or on the circulars accompanying, the preparations intended to make the purchaser believe that the preparations intended to make the purchaser believe that the medicines were effective cures for a great variety of diseases for which they were recommended by the manufacturers or promoters. The main allegations of the Government were upheld by the courts and judgment accordingly entered in connection with each of the following preparations:

Radam's Microbe Killer, Hilton's Specific, Smith's Agricultural Lintiment, Dr. Sullivan's Sure Solvent, Russell's White Drops, Stramoline, Wild Cherry Pepsin, Moreau's Wine of Anise, Dr. Herman Koch's Brand Phosphate, Celery and Gin Compound, Swiseco Hair and Scalp Remedy, Cod Liver Oil with Syrup of Tar, Dr. Mozley's Lemon Elixir, Sa-Yo Mint Jajubes, Gray's Glycerine Tonic Compound, Dr. Martel's Female Pills, Quickstep, Fry's Remedy, Seawright's Magnesian Lithia Waters, Hill's Aromatic Ext.
